

ACTUARIAL MATHEMATICS - B.S.

College of Arts and Sciences
 Department of Mathematical Sciences
www.kent.edu/math

About This Program

The Bachelor of Science in Actuarial Mathematics program provides a strong foundation in mathematics and statistics, along with specialized coursework in actuarial science to prepare you for a successful career in this growing field. You'll learn from experienced faculty, gain hands-on experience through internships and research projects and have opportunities to network with professionals in the industry. Read more...

 - Kent Campus

Examples of Possible Careers and Salaries*

Actuaries

- 17.6% much faster than the average
- 27,700 number of jobs
- \$111,030 potential earnings

Economists

- 14.1% much faster than the average
- 20,500 number of jobs
- \$108,350 potential earnings

Financial and investment analysts, financial risk specialists, and financial specialists, all other

- 5.5% faster than the average
- 487,800 number of jobs
- \$83,660 potential earnings

Mathematical science teachers, postsecondary

- 1.3% slower than the average
- 60,100 number of jobs
- \$73,650 potential earnings

Insurance underwriters

- -6.2% decline
- 114,700 number of jobs
- \$71,790 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of English language proficiency unless they meet specific exceptions. For more information, visit the admissions website for international students.

Transfer Students: Students who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students. For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar's website.

Admission policies for undergraduate students may be found in the University Catalog.

Some programs may require that students meet certain requirements before progressing through the program. For programs with progression requirements, the information is shown on the Coursework tab.

Program Requirements

Additional Requirements (courses do not count in major GPA)	
COMM 15000	INTRODUCTION TO HUMAN COMMUNICATION (KADL) 3
UC 10001	FLASHES 101 1
Foreign Language Requirement (see Foreign Language College Requirement) 8	
Kent Core Composition 6	
Kent Core Humanities and Fine Arts (minimum one course from each) 9	
Kent Core Social Sciences (must be from two disciplines) 3	
Kent Core Basic Sciences (must include one laboratory) 6-7	
General Electives (total credit hours depends on earning 120 credits hour, including 39 upper-division credit hours) 10	
Minimum Total Credit Hours: 120	

- ¹ Students who earn a minimum B- grade in ACCT 23020, ECON 22060, ECON 22061 and FIN 36053 will fulfill the Validation by Educational Experience (VEE) requirements jointly sponsored by the Society of Actuaries, Casualty Actuarial Society and Canadian Institute of Actuaries.
- ² A minimum C grade must be earned to fulfill the writing-intensive requirement.
- ³ A course may only count for one requirement even though it may appear in more than one course list.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.000	2.000

Foreign Language College Requirement, B.S.

- Students pursuing the Bachelor of Science degree in the College of Arts and Sciences must complete 8 credit hours of foreign language.¹
- The Bachelor of Science in Medical Laboratory Science is exempt from this requirement.²
- Minimum Elementary I and II of the same language

¹ All students with prior foreign language experience should take the foreign language placement test to determine the appropriate level at which to start. Some students may start beyond the Elementary I level and will complete the requirement with fewer credit hours and fewer courses. This may be accomplished by (1) passing a course beyond Elementary I through Intermediate II level; (2) receiving credit through one of the alternative credit programs offered by Kent State University; or (3) demonstrating language proficiency comparable to Elementary II of a foreign language. When students complete the requirement with fewer than 8 credit hours and two courses, they will complete remaining credit hours with general electives.

² The Bachelor of Science in Medical Laboratory Science exemption exists under another college policy (Three-Plus-One Programs).

Roadmap

This roadmap is a recommended semester-by-semester plan of study for this major. However, courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

Semester One		Credits
COMM 15000	INTRODUCTION TO HUMAN COMMUNICATION (KADL)	3
MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	5
UC 10001	FLASHES 101	1
Computer Science Elective		4
Kent Core Requirement		3
Credit Hours		16
Semester Two		Credits
MATH 12003	ANALYTIC GEOMETRY AND CALCULUS II	5
MATH 20011	DECISION-MAKING UNDER UNCERTAINTY	3
MATH 21001	LINEAR ALGEBRA	3
Kent Core Requirement		3
Kent Core Requirement		3
Credit Hours		17
Semester Three		Credits
ECON 22060	PRINCIPLES OF MICROECONOMICS (KSS)	3
MATH 22005	ANALYTIC GEOMETRY AND CALCULUS III	4
MATH 30055	MATHEMATICAL THEORY OF INTEREST	3
MATH 31011	PROOFS IN DISCRETE MATHEMATICS	3
Foreign Language		4
Credit Hours		17
Semester Four		Credits
ECON 22061	PRINCIPLES OF MACROECONOMICS (KSS)	3
MATH 32044	ORDINARY DIFFERENTIAL EQUATIONS	3
MATH 40011	PROBABILITY THEORY AND APPLICATIONS	3
Kent Core Requirement		3
Foreign Language		4
Credit Hours		16
Semester Five		Credits
ACCT 23020	INTRODUCTION TO FINANCIAL ACCOUNTING	3
MATH 40055	ACTUARIAL MATHEMATICS I (ELR) (WIC)	4
Mathematics Elective		3
Kent Core Requirement		3
Credit Hours		13
Semester Six		Credits
FIN 36053	BUSINESS FINANCE	3

MATH 40012	THEORY OF STATISTICS (WIC)	3
MATH 40056	ACTUARIAL MATHEMATICS II	4
Kent Core Requirement		3
Kent Core Requirement		3
Credit Hours		16
Semester Seven		Credits
Allied Area Elective		3
Mathematics Elective		3
Kent Core Requirement		3
General Electives		6
Credit Hours		15
Semester Eight		Credits
ECON 32050	APPLIED ECONOMETRICS I (ELR)	3
MATH 40059	STOCHASTIC ACTUARIAL MODELS	3
General Electives		4
Credit Hours		10
Minimum Total Credit Hours:		120

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	36-37

Program Learning Outcomes

Graduates of this program will be able to:

1. Reason mathematically by using precise definitions, articulating assumptions and reasoning logically to conclusions.
2. Engage effectively in problem solving by exploring examples, assessing the correctness of solutions and interpreting solutions in an actuarial context.
3. Define, interpret and apply standard actuarial notation, terminology and formulas.
4. Analyze various streams of cash flows, both certain and contingent.
5. Apply methods from probability, statistics and stochastic processes to the solution of problems in actuarial science, finance and economics.
6. Communicate solutions of mathematical problems clearly, both orally and in writing.
7. Employ commonly used computer programming languages and software packages to solve problems in actuarial science, finance and economics.
8. Demonstrate fundamental knowledge of finance, economics and accounting.

Full Description

The Bachelor of Science degree in Actuarial Mathematics prepares students for the actuarial profession. Actuaries are professionals who manage risk. They predict the likelihood of future events and model the financial impact of future scenarios. They find creative ways to mitigate the undesirable effects of future events. Although most actuaries are employed in the insurance and financial industries, many others work in the transportation, environmental, medical and manufacturing industries, as well as in government.

The Actuarial Mathematics major is highly interdisciplinary, integrating substantial coursework in business, computing and communications with a solid core of mathematics and statistics. Kent State University is one of only four institutions in Ohio to receive the "Universities and Colleges with Actuarial Programs-Advanced Curriculum" designation from the Society of Actuaries. The Kent State program prepares students for the first four of a series of examinations to receive professional certification as an actuary.
