* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

Admission to this major is selective. A minimum 3.000 GPA is required to be admitted to the major. Students who do not meet the GPA requirement

at the time of admission for this major will be admitted to the EHHS General non-degree program until which time they have established a Kent State GPA of 3.000. They may then submit a change of program to declare this major.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and meet all admission criteria listed above to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

Admission to the combined bachelor's/master's degree program: Minimum 3.000 GPA (after 90 earned credit hours) and three letters of recommendation.

International Students: All international students must provide proof of English language proficiency unless they meet specific exceptions. For more information, visit the admissions website for international students.

Program Learning Outcomes

Graduates of this program will be able to:

1. Demonstrate knowledge of the nature of speech, language and hearing processes and disorders in children and adults.
2. Demonstrate the skills necessary to be successful speech-language pathologists, audiologists, or other health and human service professionals.

3. Gain entry into graduate programs in speech pathology, audiology and/or related fields, or obtain positions in health and human services related professions.

Full Description

The Bachelor of Science degree in Speech Pathology and Audiology is a pre-professional program focusing on the basic sciences of human communication, as well as the evaluation and treatment of communication disorders. This program provides a firm foundation for continuing to the master's degree in speech-language pathology or the doctorate in audiology.

The curriculum integrates a sequence of coursework designed to provide a strong liberal arts background and an understanding of normal and disordered aspects of the human communication process. Specific coursework includes anatomy and physiology of the speech and hearing mechanisms, hearing and speech science, neurology, phonetics, normal speech and language development, speech and language disorders, audiometry and aural rehabilitation.

Speech-language pathologists are required to hold a master's degree, while audiologists hold a doctorate in audiology. Both are employed in a variety of settings, including rehabilitation centers, hospitals, schools, community clinics, private practice, research laboratories and colleges and universities.

Student may apply early to the Master of Arts degree in Speech Language Pathology and double count 9 credit hours of graduate courses toward both degree programs. See the Combined Bachelor's/Master's Degree Program Policy in the University Catalog for more information.
