Full Description

The Special Education Moderate/Intensive Needs Additional Licensure Preparation non-degree program prepares students to obtain an additional Special Education Moderate/Intensive Needs (Ohio Intervention Specialist) license. The program is designed for individuals who have a current teaching license and want to teach students requiring intensive and ongoing special education support. Most often, these will be students with intellectual disabilities, autism spectrum disorder, multiple disabilities and complex health impairments.

Completion of the coursework is a prerequisite to being recommended by Kent State University for licensure, and licenses are granted by the Ohio Department of Education.

This program does not culminate in a master's degree. Students interested in obtaining a teaching license and a master's degree from Kent State University must also be fully admitted to a master's degree and complete the prescribed coursework on the master's degree prospectus, in addition to courses that are prescribed here for additional licensure. Completing a master's degree in special education in addition to licensure will in most cases require an additional 15-18 credit hours.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.
