• Fall

Examples of Possible Careers*
Architects, except landscape and naval
• 0.8% little or no change
• 129,900 number of jobs
• $82,320 potential earnings

Architectural and engineering managers
• 2.6% slower than the average
• 198,100 number of jobs
• $149,530 potential earnings

Architecture teachers, postsecondary
• 5.1% faster than the average
• 8,500 number of jobs
• $90,880 potential earnings

Designers, all other
• -1.9% decline
• 13,600 number of jobs
• $63,750 potential earnings

Historians
• 2.6% slower than the average
• 3,500 number of jobs
• $63,100 potential earnings

*Note
Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description
The Master of Architecture degree seeks to prepare graduates to lead in the field of architecture by stimulating the growth of technical knowledge and design creativity. The program fosters the refinement of design skills acquired in undergraduate programs. Master coursework affords opportunities for inquiry in architecture through the introduction of traditional scholarly research methods as well as approaches to research through design in a studio setting. Professional practice courses paired with Theory seminars and elective classes in areas of digital technology, building sciences, and history provide a comprehensive exposure to professional opportunities and a broad capacity for considering and postulating architecture in innovative ways.

Students may also pursue a dual degree program with the Master of Business Administration degree or with the Master of Urban Design degree.

Accreditation
The M.ARC degree in Architecture is accredited by the National Architectural Accrediting Board (NAAB).

Admission Requirements
• Bachelor's degree from an accredited college or university1 for unconditional admission
• Minimum 3.000 undergraduate GPA on a 4.000 point scale for unconditional admission
• Official transcript(s)
• GRE scores (or GMAT scores for the dual degree with the M.B.A.)
• Goal statement (include intent and background information)
• Portfolio, with design work clearly indicating role in group projects
• Three letters of recommendation, with one letter from a non-academic source
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 550 TOEFL PBT score (paper-based version)
  • Minimum 79 TOEFL IBT (Internet-based version)
  • Minimum 77 MELAB score
  • Minimum 6.5 IELTS score
  • Minimum 58 PTE score
  • Minimum 110 Duolingo test score

For more information about graduate admissions, please visit the Graduate Studies website. For more information on international admission, visit the Office of Global Education’s admission website.

1 Applicants with a non-professional bachelor's degree or a pre-professional degree in architecture from another institution will have their prior education evaluated to determine if they meet student performance criteria as stipulated by the National Architectural Accrediting Board (NAAB). If deficient criteria or courses are recognized, the student may be required to complete additional courses to earn the degree. Determinations will be made by the program director and graduate coordinator at the time the student is admitted to the program.

Program Learning Outcomes
Graduates of this program will be able to:
1. Increase level of intellectual discourse about architecture.
2. Demonstrate enhanced verbal, graphic and writing skills.
3. Develop and enhance student’s research skills.
4. Develop and enhance problem-solving and reasoning skills; an ability to critically analyze information and fundamental design skills.
5. Understand the complexities of environmental design including both technical and theoretical components.
6. Develop management and leadership skills; verbal and graphic
7. Understand design and systems integration through a thesis or capstone experience through an array of professional practice and “field” related coursework.
8. Demonstrate the ability to think critically and to gather, record and apply relevant information.
9. Develop an awareness of and sensitivity to international cultures.
10. Understand different cultural perspectives, values, customs and traditions.
11. Understand western traditions.
12. Understand the principles of building programming, including assessment of user needs, review of precedents, an inventory of space requirements, site analysis and review of the relevant laws and standards.
13. Understand design principles and theories of urban design.
14. Develop an ability to compare and contrast the perspectives, values, customs and traditions of student’s own culture from those held by other cultures.
15. Develop and enhance student’s writing skills.
16. Understand the following professional practices: real estate and development, contract and planning law, leadership and ethics, office and finance management.
17. Understand site.
18. Understand the responsibility of the architect to elicit, understand and resolve the needs of the client.
19. Develop an awareness of diverse cultures, ideals and beliefs.

Professional Licensure Disclosure
This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State’s website for professional licensure disclosure.

Minimum Total Credit Hours: 44

1 Elective credits may be taken from the offerings in the College of Architecture and Environmental Design, or from other Kent State colleges, schools or departments or from the Levin College of Urban Affairs at Cleveland State University.

Graduation Requirements

Time to completion for the degree typically is one to two years for students with an accredited pre-professional undergraduate degree in architecture. Students admitted without a pre-professional degree may be required to take additional courses, in addition to the requirements for the degree, to meet NAAB student performance criteria. Therefore, time for graduation may be three years with more than the listed credit hours.

Dual Degree with M.B.A. degree in Business Administration

Students have the opportunity to complete a dual degree program with the M.Arch. degree in Architecture and the M.B.A. degree in Business Administration. A separate application must be submitted for each program. Students can view admission requirements for each program on their respective catalog page.

The dual degree combining a Master of Architecture (M.Arch.) with a Master of Business Administration (M.B.A.) is designed for architects or undergraduate architectural students who aspire to middle or executive management positions in architectural practices, or who are interested in starting their own business along with the preparation to enter the profession of architecture by stimulating the growth of technical knowledge and design creativity. It fosters the refinement of design skills acquired in undergraduate programs, also by offering a broad exposure to professional issues and knowledge.

Minimum Total Credit Hours: 64

1 Topics in Professional Practice.

• Actual offerings and schedules vary from year to year and College of Architecture and Environmental Design (CAED) and College of Business Administration (COBA) will jointly provide a pre-approved recommended course of study. Students who wish to take a different course of study need to obtain separate approvals from CAED and COBA graduate coordinators. Contact the CAED graduate secretary for details on coursework registration.

Graduation Requirements

Minimum of 64 credit hours, 35 from the M.Arch. program and 29 from the M.B.A. program.

Dual Degree with M.U.D. degree in Urban Design

Students have the opportunity to complete a dual degree program with the M.U.D. degree in Urban Design and the M.Arch. degree in Architecture. A separate application must be submitted for each program. Students can view admission requirements for each program on their respective catalog page.

This dual degree program prepares students to enter the profession of architecture by stimulating the growth of technical knowledge and design creativity. It fosters the refinement of design skills acquired in...
undergraduate programs and offers a broad exposure to professional issues and knowledge related to urban design.
