AERONAUTICAL SYSTEMS ENGINEERING TECHNOLOGY - B.S.

Examples of Possible Careers*
Aerospace engineering and operations technologists and technicians
- 7.0% faster than the average
- 11,900 number of jobs
- $68,570 potential earnings

Calibration technologists and technicians and engineering technologists and technicians, except drafters, all other
- 2.1% slower than the average
- 91,600 number of jobs
- $64,190 potential earnings

Mechanical drafters
- -8.3% decline
- 57,500 number of jobs
- $58,270 potential earnings

Fully Offered
- Kent Campus

*Note
Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics
Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description
The Bachelor of Science degree in Aeronautical Systems Engineering Technology prepares graduates to enter careers in the design, installation, manufacturing, testing, evaluation, technical sales and maintenance of aeronautical/aerospace systems. Students gain technical expertise in engineering materials, statics, strength of materials, applied aerodynamics, applied propulsion and electronics. Graduates have strengths in the analysis, applied design, development, implementation and oversight of more advanced aeronautical/aerospace systems and processes.

Information on the program's education objectives and student enrollment and graduation data can be found on the college website.

Accreditation
The B.S. degree in Aeronautical Systems Engineering Technology is accredited by the Engineering Technology Accreditation Commission of ABET (www.abet.org) and the Aviation Accreditation Board International (www.aabi.aero).

Admission Requirements
The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

Freshman Students on the Kent Campus: The freshman admission policy on the Kent Campus is selective. Admission decisions are based upon the following: cumulative grade point average, ACT and/or SAT scores, strength of high school college preparatory curriculum and grade trends. The Admissions Office at the Kent Campus may defer the admission of students who do not meet admissions criteria but who demonstrate areas of promise for successful college study. Deferred applicants may begin their college coursework at one of seven regional campuses of Kent State University. For more information on admissions, including additional requirements for some academic programs, visit the admissions website for first-year students.

Freshman Students on the Regional Campuses: Kent State campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, have open enrollment admission for students who hold a high school diploma, GED or equivalent.

English Language Proficiency Requirements for International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning a minimum 525 TOEFL score (71 on the Internet-based version), minimum 75 MELAB score, minimum 6.0 IELTS score, minimum 48 PTE score or minimum 100 DET score; or by completing the ESL level 112 Intensive Program. For more information on international admission, visit the Office of Global Education’s admission website.

Transfer, Transitioning and Former Students: For more information about admission criteria for transfer, transitioning and former students, please visit the admissions website.

Transfer students must have a minimum 2.250 overall GPA in all college-level coursework for admission to the Aeronautical Systems Engineering Technology major.

Program Learning Outcomes
Graduates of this program will be able to:

1. Apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems appropriate to the discipline.
2. Design systems, components, or processes meeting specified needs for broadly defined engineering problems appropriate to the discipline.
3. Apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.
4. Conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes.
5. Function effectively as a member as well as a leader on technical teams.

University Requirements
All students in a bachelor’s degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Destination Kent State: First Year Experience
1
Course is not required for students with 25 transfer credits, excluding College Credit Plus, or age 21+ at time of admission.

Diversity Domestic/Global (DIVD/DIVG)
2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.

Experiential Learning Requirement (ELR)
varies
Students must successfully complete one course or approved experience.

Kent Core (see table below)
36-37
Writing-Intensive Course (WIC)
1 course
Students must earn a minimum C grade in the course.

Upper-Division Requirement
39 (or 42)
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate. Students in a B.A. and/or B.S. degree in the College of Arts and Sciences must complete 42 upper-division credit hours.

Total Credit Hour Requirement
120
Some bachelor’s degrees require students to complete more than 120 credit hours.

Kent Core Requirements
Kent Core Composition (KCMP)
6
Kent Core Mathematics and Critical Reasoning (KMCR)
3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)
9
Kent Core Social Sciences (KSS) (must be from two disciplines)
6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)
6-7
Kent Core Additional (KADL)
6
Total Credit Hours:
36-37
