Fully Offered

• Kent Campus

Description

The Medical Anthropology minor is attractive to any student in nursing, pre-med, public health, psychology and related disciplines. It is designed to give students the skills needed to provide culturally sensitive and effective health care. Medical Anthropology is the fastest growing sub-discipline of anthropology with a variety of application. It is a broad field that includes medical and psychiatric anthropology, global health, disability, social suffering, humanitarianism, death and dying, caregiving, public health, medical ethics, human rights and medical humanities.

Admission Requirements

Admission to a minor is open to students declared in a bachelor’s degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.
