Description
Admission to the Master of Science (M.S.) in Biology has been temporarily suspended as of fall 2017.

The Master of Science degree in Biology provides an advanced degree for students who have an undergraduate degree in biology or a related life science. The program is offered for working biologists in various professions including educators teaching science at the secondary level.

Admission Requirements
Admission to the Master of Science (M.S.) in Biology has been temporarily suspended as of fall 2017.

- Official transcript(s)
- Minimum 3.00 undergraduate GPA
- Goal statement
- Three letters of recommendation
- GRE scores

English Language Proficiency Requirements for International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning a minimum 587 TOEFL score (94 on the Internet-based version), minimum 82 MELAB score, minimum 7.0 IELTS score or minimum 65 PTE Academic score. For more information on international admission, visit the Office of Global Education's admission website. Effective spring 2018.

For more information about graduate admissions, please visit the Graduate Studies website.

Program Learning Outcomes
Graduates of this program will be able to:

1. Understand advanced biological concepts beyond the scope of the typical undergraduate degree, and increase the depth of their knowledge through coursework and hands-on experiences.
2. Apply scientific principles and appreciate work outside of their particular field.
3. Effectively communicate about science with colleagues as well as those outside of the student’s area of expertise.
4. Develop the necessary laboratory skills that will allow testing of hypotheses.

Program Requirements
Major Requirements

| Courses selected in consultation with academic faculty advisor | 26 |
| BSCI 60199       | THESIS I       |

Students interested in cell-/molecular-/biomedical-/biotechnology-related areas are encouraged to choose from the following:

- BSCI 50158       MOLECULAR BIOLOGY
- BSCI 50142       BIOENERGETICS
- BSCI 50143 & BSCI 60144 EUKARYOTIC CELL BIOLOGY and SELECTED READINGS IN EUKARYOTIC CELL BIOLOGY
- BSCI 50174       IMMUNOLOGY
- BSCI 50432       ENDOCRINOLOGY
- BSCI 50433       MAMMALIAN PHYSIOLOGY I
- BSCI 50434       MAMMALIAN PHYSIOLOGY II

Students interested in ecology are encouraged to choose from the following:

- BSCI 50163       EVOLUTION
- BSCI 50363       MICROBIAL ECOLOGY
- BSCI 50364       LIMNOLOGY
- BSCI 50368       WETLAND ECOLOGY AND MANAGEMENT
- BSCI 50374       CONSERVATION BIOLOGY
- BSCI 50556       VERTEBRATE ZOOLOGY
- BSCI 50371       EVOLUTIONARY BIOLOGY

Teachers holding or pursuing K-12 licensure are encouraged to choose from the following:

- BSCI 50163       EVOLUTION
- BSCI 50196       INDIVIDUAL INVESTIGATION
- BSCI 60080       EXPERIMENTAL METHODS IN BIOLOGY

Minimum Total Credit Hours: 32

1 The Department of Biological Sciences frequently offers special topics classes in specialized areas of interest, which can count towards the degree when part of the approved program of study. Coursework in other fields within the natural and physical sciences may be used to meet credit hour requirements when part of the approved program of study. Teachers holding or pursuing K-12 licensure must complete a minimum of 18 credit hours of biological sciences courses toward the degree. Students holding a bachelor’s degree without K-12 licensure must complete a minimum of 23 hours of biological science courses toward the degree. BSCI 50104 may not be used to fulfill degree requirements. Maximum 4 credit hours may be earned through workshops in the sciences and science education.

2 After completing 6 credit hours of BSCI 60199, students must register continually for BSCI 60299 until the degree is earned.
