• Speak with an Advisor

Fully Offered
• Kent Campus

Description
The Human Disease minor gives students background on human disease processes and mechanisms prevalent in medical settings.

Admission Requirements
Admission to a minor is open to students declared in a bachelor’s degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.

Program Learning Outcomes
Graduates of this program will be able to:
2. Appreciate the deleterious health impacts of these diseases, and demonstrate understanding of current treatment options.
3. Read and analyze primary scientific reports related to human disease and their underlying cellular, molecular, physiological and behavioral mechanisms.

Program Requirements

Minor Requirements

• Students must complete at least two upper-division (30000 or 40000 level) courses in the minor at Kent State on a graded basis (A-T).
• Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
• Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
• Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

The following Biological Sciences (BSCI) courses may NOT be used in the elective category for majors or minors in the Department of Biological Sciences:

<table>
