Description
The Cyber Geographic Information Science graduate certificate prepares graduates to work in the geospatial technology industry, as well as allied industries that rely on employees who are highly trained in this technology. Prospective employers are private and public sector entities that need to manage large systems and big geospatial data. Examples of such employers are local, state and federal government agencies; businesses that focus on logistics, marketing and engineering; and non-profit agencies in health services and environment management.

Fully Offered At:
- Online

Admission Requirements
- Official transcript(s)
- Undergraduate degree in geography or a related field\(^1\)
- Minimum 3.000 undergraduate GPA
- Goal statement
