Description
The Geographic Information Science graduate certificate prepares graduates to work in the geospatial technology industry, as well as in allied industries that rely on employees who are highly trained in this technology. Prospective employers are private and public sector entities that need to manage large systems and big geospatial data, map and analyze health data, and map and analyze environmental conditions and resources. Examples of such employers are local, state and federal government agencies; business that focus on logistics, marketing and engineering; and non-profit agencies in health services and environmental management.

FULLY OFFERED AT:
• Online

Admission Requirements
• Official transcript(s)
• Undergraduate degree in geography or a related field¹
• Minimum 3.000 undergraduate GPA
• Goal statement
• Two letters of recommendation

For more information about graduate admissions, please visit the Graduate Studies website.

¹ Requirement that undergraduate degree be in geography or related field may be waived with evidence of professional experience using geospatial technologies or alternative evidence of ability to excel in a geographic information science graduate program.
