Description
The Master of Business Administration degree for professionals (Executive M.B.A.) prepares students for leadership positions in regional, national and international organizations. Curricular and co-curricular emphases are on ethical leadership, teamwork, creative problem solving, global perspectives and skillful applications of information technology.

The Executive M.B.A. is a highly personalized and interactive educational experience. The program is structured such that students take all their classes together, study in teams and interact with senior business faculty. The result is an educational experience unlike the more traditional M.B.A. programs. Professional development workshops and one hour of free coaching are included in the program.

The program begins each year in late-August. Students entering the program have a three-day residency requirement. After that, they meet once monthly on weekends for classes. A 10-day international business experience is included midway through the program, providing participants with an applied learning experience abroad.
