Description
The Master of Arts degree in Art Education provides opportunities for those with a background in art education (preference given to B.A., B.F.A., and B.S. in Art Education) to develop a focused competence in the visual arts, as well as an intellectual understanding of the history and current issues of the field of art education. Students study quantitative and qualitative approaches to research then select to do a research study with a thesis or a master’s project option. The thesis culminates in a document that is based on scholarly research of an art education related topic. The master’s project involves research, which focuses on participant/researcher studies in curriculum, classroom settings, grant implementation and/or community-based projects.

Minimum Total Credit Hours: 34

1. Students must completed ARTE 61191, ARTE 61291 and ARTE 61101 and 3-5 credit hours in other program requirements before scheduling the candidacy examination.

2. The thesis is a significant project or body of work done independently of other coursework. Students are expected to demonstrate the ability to conduct research or produce a significant, original project in a discriminating and disciplined manner. The thesis topic should be one that will further the student's knowledge and ability in the specialty by demonstrating skill as a researcher. The outcome should be an effort that serves as a foundation for the pursuit of independent work when the graduate program is completed. At this stage, students are expected to work in close consultation with their thesis advisor.

3. The project option is appropriate for students in contexts in which research can be completed on their own practice, in most cases in the student's own art classrooms or other educational venues. Students articulate and refine knowledge, reflective practice (including critical self-reflection) and the development of goals to improve practice or further understanding of phenomena within the field of art education.
