ARTH 42065  FEMINIST AND QUEER ART AND CULTURAL THEORY  3 Credit Hours
(Slashed with ARTH 52065) This advanced and interdisciplinary art history course explores feminist and queer visual histories, with particular attention to related cultural theories. In addition to paradigmatic ideologies of difference and language, this course is based on indispensable and sometimes peripheral postmodern milieus such as politicized identities, economies and the body, the importance of feeling and the everyday, feminist-Marxist critiques of community and the state and notions of lived histories/narratives. In regard to structure, this is a reading intensive course designed to empower students with 'influential' visual and textual languages, as well as knowledge of critical race, gender and sexuality studies. Readings, discussions, projects and analyses of geographic and embodied borders. We will also study specific borderlands, Israel's occupation of Palestine, treating East and West Berlin in the context of embodied borders and diasporas. From the historically charged U.S.-Mexico borderlands to the Berlin Wall that divided East and West Germany, modernity is characterized by the development of nations and subsequent nationalisms as well as the delineation of borders and boundaries—and, once unpacked, theoretical and physical embodiments become legible. Taking a historically-grounded and global approach to state production and displacement, critical texts—many of which are grounded in feminist and queer theories—will address various interpretations of boundaries, especially national and corporeal. We will explore the intellectual history of nation-building and subsequent textual analyses of geographic and embodied borders. We will also study specific art historical moments, such as the militarization of the U.S.-Mexico frontera, Israel's occupation of Palestine, treating East and West Berlin as metaphor and allegory, the borderlands of queer and black identities in the United States and present-day Euro-American imperialism. The course format consists of rigorous class discussions guided by readings and illustrated presentations.
