Description
The Digital Sciences minor is designed to complement a wide range of majors, including computer science, fashion, computer information systems, visual communication design, journalism and mass communication, communication studies.

The minor includes curriculum that focus on developing a content-rich website and on making a web page or software application easier to use. The minor also provides options for students to explore either societal or ethical issues involving technology; explore either design thinking or programming; and explore either security, project management, information management or enterprise architecture.

Fully Offered At:
• Kent Campus

Admission Requirements
Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.
