Description
The Master of Arts degree in Journalism and Mass Communication is designed to give students a solid background in preparation for a professional career. Students are able to take a mix of online and face-to-face courses that allow them to craft a graduate degree that reflects their career interest. Courses are dynamic, challenging and professionally relevant. With small class sizes, students are able to learn from their professors and from the experiences of their fellow classmates, many of whom are working media professionals or nationally recognized journalism educators.

The Journalism and Mass Communication major offers the following optional concentration:

- The Journalism Education concentration is is intended for those seeking to teach or advise student journalists. The program is affiliated with Kent State’s Center for Scholastic Journalism, and faculty include some of the most-recognized high school journalism educators in the country. The coursework focuses on concepts and lessons that can be used in a teacher’s classroom right away.

The School of Journalism and Mass Communication provides its students with a strong foundation to achieve their goals in the rapidly changing media industry. All students take a series of core courses that provide the foundation for a journalism and mass communication career and develop a specialization through the selection of elective courses that can be within or outside of the school. One student may choose to hone skills as a multimedia journalist focusing on public affairs, while another may seek to develop expertise as a public relations professional for not-for-profit organizations. All students will work with an advisor to plan a course of study that meets their professional needs.
