Description
The Bachelor of Science degree in Public Relations gives students the opportunity to study the strategic management of communication and the relationships between organizations and their key constituents. Students develop skills in written, digital, verbal and visual communications, as well as in research, measurement and strategic thinking. Numerous hands-on learning opportunities allow students to develop plans, strategies and tactics that would be produced in the public relations field. Often, projects relate to actual client communication challenges. In campaign projects, students complete research and create a public relations plan for a real client. In addition, they are required to complete 150 hours of an internship.

Public relations students have the opportunity to apply for positions at two student-staffed agencies, Flash Communications and IdeaBase. Flash Communications is a student PR agency located in Kent State’s University Communications and Marketing division and managed by a full-time PR faculty member. IdeaBase is an integrated marketing and communications firm located in downtown Kent. In addition, students have the opportunity to gain public relations experience through a range of campus jobs.

Students also have the opportunity to be involved with the award-winning Kent State Chapter of the Public Relations Student Society of America (PRSSA). In October 2014, the chapter received the Outstanding Chapter Award at PRSSA’s national conference. Kent State’s chapter is one of only 12 “star” chapters in PRSSA and has received seven national awards in 10 years.

Programs in the College of Communication and Information are, by nature, innovative, interdisciplinary and collaborative, which is critical to both professional and scholarly disciplines. Students are educated to work at the intersections of communication, information and technology. Through a core of diverse theory- and practice-based courses, students learn basic concepts that apply across the range of college programs and develop a sense of professional expectations and build toward interdisciplinary thinking and application.

There are many short- and long-term study abroad/away opportunities. For more information contact the Office of Global Education or CCI’s coordinator of International Study Programs.
