Minimum Total Credit Hours: 60

1 For applicants without a visual communication design undergraduate degree, a portfolio may be defined as any creative, problem-solving endeavor. It may include drawing, painting, illustration, photography, web related solutions, interactions, writing or other types of solutions not listed here.

2 The thesis is a significant project or body of work done independently of other coursework. Students are expected to demonstrate the ability to conduct research or produce an original project in a discriminating and disciplined manner. The thesis topic should be one that will further the student’s knowledge and ability in the specialty by demonstrating skill as a researcher or professional designer/illustrator. The outcome should be an effort that serves as a foundation for the pursuit of independent work when the graduate program is completed. At this stage, students are expected to work in close consultation with their thesis advisor.

Graduation Requirements
• The Master of Fine Arts program requires the successful completion of 60 credit hours of graduate credit and requires a thesis.
• The final examination is at the completion of the studio or research thesis. The final examination is the presentation and defense of the thesis and is also an examination of the graduate student’s general comprehension of visual communication design. Graduate students are expected to follow the university schedule of deadlines for taking the final examination and presenting thesis materials.
