EXERCISE PHYSIOLOGY - PH.D.

College of Education Health and Human Services
School of Health Sciences
www.kent.edu/ehhs/hs

Examples of Possible Careers*
Biological science teachers, postsecondary
- 9.3% much faster than the average
- 64,700 number of jobs
- $85,600 potential earnings

Exercise physiologists
- 11.3% much faster than the average
- 19,800 number of jobs
- $50,280 potential earnings

Medical scientists, except epidemiologists
- 6.1% faster than the average
- 138,300 number of jobs
- $91,510 potential earnings

Contact Information
- Program Coordinator: J. Derek Kingsley | jkingsle@kent.edu | 330-672-0222
- Chat with an Admissions Counselor

Fully Offered
- Kent Campus

Admission Terms
- Fall
- Spring
- Summer

*Note
Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description
The Ph.D. degree in Exercise Physiology prepares students for a wide variety of career options, including exercise prescription and research. The program develops the competencies needed for those who intend to teach exercise physiology, pursue research or apply exercise physiology in practice.

Accreditation
Commission on Accreditation of Allied Health Education Programs

Admission Requirements
- Master’s degree from an accredited college or university for unconditional admission
- Previous degree in exercise science or equivalent preparation for unconditional admission
- Minimum 3.000 graduate GPA on a 4.000 point scale (minimum 3.500 GPA is recommended) for unconditional admission
- Official transcript(s)
- GRE or MCAT score of the 50th percentile (effective spring 2022, GRE or MCAT are no longer required)
- Goal statement
- Two letters of recommendation
- Interview
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  - Minimum 550 TOEFL PBT score (paper-based version)
  - Minimum 79 TOEFL IBT score (Internet-based version)
  - Minimum 77 MELAB score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 Duolingo English Test score

Effective Spring 2022:
- Curriculum vita or résumé are required for admission to the program.

For more information about graduate admissions, please visit the Graduate Studies admission website. For more information on international admission, visit the Office of Global Education's admission website.

Program Learning Outcomes
Graduates of this program will be able to:
1. Present their research data regionally and nationally at conferences.
2. Publish their research data in peer reviewed publications.
3. Teach classes associated with exercise physiology.
4. Work in the field and implement community-based exercise programming.

Professional Licensure Disclosure
This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Exercise Physiology Electives, choose from the following: 9

- EXPH 75075 MUSCLE FUNCTION AND EXERCISE
- EXPH 75076 ENVIRONMENTAL STRESS AND EXERCISE
- EXPH 75081 ENERGY METABOLISM AND BODY COMPOSITION
  or EXPH 75083 EXERCISE ENERGY METABOLISM
- EXPH 75082 CARDIO-RESPIRATORY FUNCTION
  or EXPH 75084 CARDIOVASCULAR-RESPIRATORY DYNAMICS DURING EXERCISE

Physiology Electives, choose from the following: 6

- EXPH 70610 PHYSIOLOGY OF AGING: IMPLICATIONS FOR HUMAN BEHAVIOR
- EXPH 75080 PHYSIOLOGICAL BASIS OF EXERCISE AND SPORT
- EXPH 75086 NEUROBIOLOGY OF EXERCISE AND MOVEMENT

Additional electives as approved by faculty advisor

Minimum Total Credit Hours: 65

1 Students must enroll in EXPH 73091 for two semesters.

2 Upon admission to candidacy, each doctoral candidate must register for EXPH 83199. It is expected that a doctoral candidate will continuously register for Dissertation I for a total of 30 credit hours, and thereafter EXPH 83299, each semester until all requirements for the degree have been met. The dissertation must show that the student has the competency to conduct research in a discriminating and original manner. The quality of the dissertation must be such that one or more articles acceptable for publication in a professional journal may be expected to be derived from it.

Graduation Requirements

- Only in rare instances does a student fulfill the educational and research expectations within the minimum-credit-hour requirement for this degree. Any deficiencies in a doctoral student’s academic preparation must be corrected very early in the approved academic program.

Candidacy Examination

Students will be required to pass an oral and written candidacy examination after coursework is completed before beginning their dissertation. Prior to taking the candidacy examination, the student must demonstrate his or her ability to conduct independent research related to the field of exercise physiology. This may be in the form of a completed thesis, an independent study project or an article published in an acceptable research journal. The acceptability of such evidence is to be determined by faculty advising students in exercise physiology.
