Additional Courses required relative to major area of study ³ 15

Minimum Total Credit Hours: 87

¹ Upon admission to candidacy, each doctoral candidate must register for CES 80199. It is expected that a doctoral candidate will continuously register for Dissertation I for a total of 30 credit hours, and thereafter CES 80299, each semester (including summer) until all requirements for the degree have been met. Students will be expected to be familiar with data entry and interpreting computer generated analysis.

² Students will take 3 credit hours of CES 88292 per semester for two consecutive semester, for a total of 6 credit hours of internship.

³ The minimum number of credit hours required for the major is 87. Additional courses may be required based on the specific needs of the student.
Students will also have 9 additional credit hours of CES specialization and 6 credit hours elective coursework; total 15. In designing the 6 credit hours, students may want to consult with their advisors about registering for additional courses that consider research design; for example: EVAL 78713, EVAL 78714, EVAL 78716, EVAL 78728, and EVAL 88795.

Graduation Requirements
After admission to the Ph.D. degree program, students plan a program of study with their respective faculty advisory committee. Please refer to the program and college doctoral handbook for more information about requirements for graduation.

- Students are expected to have completed curricular experiences equivalent to CACREP entry-level standards and curricular requirements of a specific CACREP program area before beginning doctoral-level counselor education coursework. Any missing content can be completed before or in some cases (e.g., if minimal content is needed) concurrently with initial doctoral-level counselor education coursework.
- Students will have completed the coursework for the Professional Clinical Counselor License in Ohio either before entry into the program or during the program.
- Successful completion of written and oral comprehensive exams is required before students can be registered for dissertation credit hours.
