GERONTOLOGY - MINOR

College of Education, Health and Human Services
School of Lifespan Development and Educational Sciences
405 White Hall
Kent Campus
330-672-2294
www.kent.edu/ehhs/ldes

Description
A Gerontology minor provides students with knowledge of the aging process and prepares students for professional positions in the diverse field of aging. Current predictions indicate that a "baby boomer" will turn 60 every seven seconds for the next 18 years. By 2050 it is estimated that one in five people will be over the age of 65, meaning there will be an increase in demand for individuals with an understanding of the aging process. As a result, pairing this minor with such majors as Psychology, Sociology, Business, English, Nursing, Education, Interior Design, Political Science, Speech Pathology, Audiology and Recreation, Parks and Tourism Management, among others, will prove to be beneficial for future employment.

After declaring the Gerontology minor, students are required to meet with the HDFS program coordinator to discuss course selection and procedures for completing the minor.

Fully Offered At:
• Kent Campus
