*Note

Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics'

Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description

The Bachelor of Science degree in Human Development and Family Studies offers an interdisciplinary approach to individual and family development. Students receive the knowledge and skills needed to help individuals and families across the lifespan to flourish in a global society. The degree prepares students for a wide range of careers in diverse settings, including family and community-based social services, prevention, nonprofit administration and family and community intervention. Core coursework focuses on development across the lifespan and understanding family relationships, the environments in which individuals live and learn and the unique strengths and needs of diverse individuals and families.

The Human Development and Family Studies major comprises the following concentrations:

- The **Case Management for Individuals and Families** concentration provides training in needs assessment and the utilization of available public and private resources. Case managers provide assistance to individuals and families by coordinating services and access to resources. Students in this concentration learn the skills necessary to understand clients' needs and goals, and develop a plan to achieve these goals with the resources and services available to them. Graduates are eligible for securing positions in a wide array of social service agencies.
- The **Child and Youth Development** concentration prepares students for working with children and adolescents in non-school settings such as residential treatment, group care, community youth services, foster care and after-school programs. Graduates are able to design and deliver developmentally appropriate programs, preparing children and youth for productive adulthood by emphasizing skills and competency development.

- The **Family Life Education** concentration prepares graduates to develop and implement educational programming for parents, couples and families in a variety of education and human service settings. Family life educators teach individuals and families effective communication skills, positive self-esteem, parenting skills and healthy interpersonal skills. Graduates are eligible to apply to be certified family life educators (CFLE), a credential granted by the National Council on Family Relations.
- The **Gerontology** concentration prepares graduates for professional positions in the diverse field of aging, including health and wellness, community-based social services, retirement communities, adult-care centers and nursing homes. The curriculum provides students with a solid understanding of typical age-related changes and how these changes affect a person physiologically, psychologically and socially. According to the U.S. Census, 20 percent of the total population will be 65 or older by 2030. Because of the increasing number of older persons and the fact that people are generally living longer, there is a growing need for people to work in the field of aging.
- The **Human Services** concentration is a completer program for students who hold an associate degree in human services. This concentration prepares graduates for entry-level positions in a variety of human service agencies, including child and family welfare agencies, mental health centers, developmental disability facilities and substance abuse treatment centers.

Students may apply early to the following master's degree programs and double count graduate courses toward both degrees. See the Combined Bachelor's/Master's Degree Program Policy in the University Catalog for more information.

- Combined degree with M.A. degree in Human Development and Family Studies – double count 9 credit hours of graduate courses
- Combined degree with M.Ed. degree in Clinical Rehabilitation Counseling – double count 12 credit hours of graduate courses

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campus to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. Check with a regional campus admissions office to determine application requirements, as they may differ among campuses.

International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning a minimum 525 TOEFL score (71 on the Internet-based version), minimum 75 MELAB score, minimum 6.0 IELTS score, minimum 48 PTE score or minimum 100 DET score; or by completing the ESL level 112

Intensive Program. For more information, visit the admissions website for international students.

Transfer Students: For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar's website.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and earned a minimum 2.000 overall Kent State GPA to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

Program Learning Outcomes

Graduates of this program will be able to:

1. Identify physical, cognitive, emotional and social dimensions of human development and family relationships.
2. Identify reciprocal influences of family, school, work and community contexts on human development.
3. Identify practical implications of human development and family relationship concepts.
4. Demonstrate an understanding of program development, delivery and evaluation.
5. Access scholarly sources and critically evaluate the quality of empirical research.
6. Demonstrate an understanding of theories, methods and principles of research.
7. Effectively communicate ideas in oral presentations and written papers.
8. Recognize the unique strengths and needs of individuals and families.
9. Apply knowledge of human development and family relationships through involvement with and study of diverse domestic and international populations.
10. Identify opportunities for advanced training in human development and family studies and related professions.
11. Identify opportunities for employment in human development and family studies and related professions.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

¹ Professional Phase coursework

Progression Requirements

To be able to register for upper-division Human Development and Family Studies (HDFS 30000 or 40000 level) courses, students must be admitted to the professional phase of the program. Admittance is a selective process. Criteria for acceptance are the following:

- Minimum 2.500 overall GPA earned in the following courses: ENG 11011, ENG 21011, HDFS 14027, HDFS 24011, HDFS 24012, PSYC 11762, SOC 12050
- Minimum 3.000 overall GPA earned in the following courses: HDFS 14027, HDFS 24011, HDFS 24012
- For students in the Human Services concentration, completion of the Associate of Applied Science degree in Human Service is required prior to being admitted to the professional phase

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.250	2.000

- State/federal background checks may be required for some practicum/internship sites. Results indicating one of the disqualifying offenses, whether expunged or current, may result in the inability to be placed in select practicum/internship sites.
