## Description

The Bachelor of Science degree in Human Development and Family Studies offers an interdisciplinary approach to individual and family development across the lifespan, providing opportunities for students to study how people develop physically, emotionally and socially within the context of the family and society. The program focuses on child and adolescent development, adult development and aging, biological aspects of human development, family studies, intervention research and developmental research methods. Students learn about the stages of development from infancy to adulthood and how to promote healthy family development.

The Human Development and Family Studies major comprises the following concentrations:

- The **Case Management for Individuals and Families** concentration provides training in needs assessment and the utilization of available public and private resources. Case managers provide assistance to individuals and families by coordinating services and access to resources. Students in this concentration will learn the skills necessary to understand clients' needs and goals, and develop a plan to achieve these goals with the resources and services available to them. Graduates are eligible for securing positions in a wide array of social service agencies.
- The **Child and Youth Development** concentration prepares students for working with children and adolescents in non-school settings such as residential treatment, group care, community youth services, foster care and after-school programs. Graduates are able to design and deliver developmentally appropriate programs, preparing children and youth for productive adulthood by emphasizing skills and competency development.
- The **Family Life Education** concentration prepares graduates to develop and implement educational programming for parents, couples, and families in a variety of education and human service settings. Family life educators teach individuals and families effective communication skills, positive self-esteem, parenting skills and healthy interpersonal skills. Graduates are eligible to apply to be certified family life educators (CFLE), a credential granted by the National Council on Family Relations.
- The **Gerontology** concentration prepares graduates for professional positions in the diverse field of aging, including health and wellness, community-based social services, retirement communities, adult-care centers and nursing homes. The curriculum provides students with a solid understanding of typical age-related changes and how these changes affect a person physiologically, psychologically and socially. According to the U.S. Census, 20 percent of the total population will be 65 or older by 2030. Because of the increasing number of older

persons and the fact that people are generally living longer, there is a growing need for people to work in the field of aging.

- The **Human Services** concentration is a complete program for students who hold an associate degree in human services. This program prepares graduates for entry-level positions in a variety of human service agencies, including child and family welfare agencies, mental health centers, developmental disability facilities and substance abuse treatment centers.
- The **Nursing Home Administration** concentration qualifies students for employment as administrators in long-term care settings, including nursing homes, assisted living facilities and congregate living settings. Successful graduates will be eligible to apply for the national and state licensure examinations required in the State of Ohio to become a Licensed Nursing Home Administrator (LNHA).

## Fully Offered At:

- Kent Campus
- Salem Campus (Human Services, Family Life Education and Case Management for Individuals and Families concentrations only)
- Stark Campus (Family Life Education, Gerontology and Nursing Home Administration concentrations only)

## Accreditation

The Nursing Home Administration concentration: National Association of Long Term Care Administrator Boards (NAB)

## Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

**Freshman Students on the Kent Campus:** The freshman admission policy on the Kent Campus is selective. Admission decisions are based upon the following: cumulative grade point average, ACT and/or SAT scores, strength of high school college preparatory curriculum and grade trends. The Admissions Office at the Kent Campus may defer the admission of students who do not meet admissions criteria but who demonstrate areas of promise for successful college study. Deferred applicants may begin their college coursework at one of seven regional campuses of Kent State University. For more information on admissions, including additional requirements for some academic programs, visit the admissions website for new freshmen.

**Freshman Students on the Regional Campuses:** Kent State campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Regional Academic Center in Twinsburg, have open enrollment admission for students who hold a high school diploma, GED or equivalent.

**English Language Proficiency Requirements for International Students:** All international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning a minimum 525 TOEFL score (71 on the Internet-based version), minimum 75 MELAB score, minimum 6.0 IELTS score or minimum 48 PTE score, or by completing the ESL level 112 Intensive Program. For more information on international admission, visit the Office of Global Education's admission website.

**Transfer, Transitioning and Former Students:** For more information about admission criteria for transfer, transitioning and former students, please visit the admissions website.

**Current Kent State and Transfer Students:** Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and earned a minimum 2.000 overall Kent State GPA to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

## Program Learning Outcomes

Graduates of this program will be able to:

1. Identify physical, cognitive, emotional and social dimensions of human development and family relationships.
2. Identify reciprocal influences of family, school, work, and community contexts on human development.
3. Identify practical implications of human development and family relationship concepts.
4. Demonstrate an understanding of program development, delivery and evaluation.
5. Access scholarly sources and critically evaluate the quality of empirical research.
6. Demonstrate an understanding of theories, methods and principles of research.
7. Effectively communicate ideas in oral presentations and written papers.
8. Recognize the unique strengths and needs of individuals and families.
9. Apply knowledge of human development and family relationships through involvement with and study of diverse domestic and international populations.
10. Identify opportunities for advanced training in human development and family studies and related professions.
11. Identify opportunities for employment in human development and family studies and related professions.

indicating one of the disqualifying offenses, whether expunged or current, may result in the inability to be placed at a skilled nursing facility for the required practicum hours and may prevent students from applying to operate a skilled nursing facility or assisted living facility. Students in this concentration are encouraged to pursue a business-related minor to be exposed to a basic business core and gain an overview of the world of business.

## Roadmaps

- Case Management for Individuals and Family Study Concentration
- Child and Youth Development Concentration
- Family Life Education Concentration
- Gerontology Concentration
- Nursing Home Administration Concentration

## Progression Requirements

To be able to register for upper-division Human Development and Family Studies (HDFS 30000 or 40000 level) courses, students must be admitted to the professional phase of the program. Admittance is a selective process. Criteria for acceptance are the following:

- Minimum 2.500 overall GPA earned in the following courses: ENG 11011, ENG 21011, HDFS 14027, HDFS 24011, HDFS 24012, PSYC 11762, SOC 12050
- Minimum 3.000 overall GPA earned in the following courses: HDFS 14027, HDFS 24011, HDFS 24012
- For students in the Human Services concentration, completion of the Associate of Applied Science degree in Human Service is required prior to being admitted to the professional phase
- For students in the Nursing Home Administration concentration, completion of Questions in Anticipation of Licensure Form must be completed.

## Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.250	2.000

- State/federal background checks may be required for some practicum/internship sites. Results indicating one of the disqualifying offenses, whether expunged or current, may result in the inability to be placed in select practicum/internship sites.
- For students in the Nursing Home Administration concentration, in order to pass the national exam offered through the National Association of Long Term Care Administrator boards and the state exam offered by Ohio, it is highly recommended that students maintain a 2.500 major and overall GPA in the major.
