or SPSY 87998	RESEARCH SEMINAR IN SCHOOL PSYCHOLOGY	
SPSY 87992	DOCTORAL INTERNSHIP IN SCHOOL PSYCHOLOGY	12
SPSY 87998	RESEARCH SEMINAR IN SCHOOL PSYCHOLOGY	3
Psychology (PSYC) Elective		3
Culminating Requirement		
SPSY 80199	DISSERTATION I ¹	30
Minimum Total Credit Hours:		91

¹ Upon admission to candidacy, each doctoral candidate must register for SPSY 80199. It is expected that a doctoral candidate will continuously register for Dissertation I for a total of 30 credit hours, and thereafter, SPSY 80299 each semester until all requirements for the degree have been met.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- The total number of required credit hours in each student's Plan of Study/Residency Plan will vary based on previous graduate coursework, point of entry into the program, program area advisor input and the school psychology program requirements. The minimum requirement for a doctoral degree is 60 credit hours beyond the master's degree. Given the requirements of the accreditation bodies governing Kent State's school psychology degree program, the

typical number of required credit hours for the doctoral degree will exceed that of the minimum college requirements.

- Students who enter the program without recent and comprehensive training in school psychology (from a NASP-approved program) and without a school psychology license must complete relevant coursework. The total number of required hours will vary based on point of entry into the program, previous coursework and program advisor input.
- State/Federal background checks are required for all field-based experiences.

Candidacy

Once the student has successfully completed and orally defended their comprehensive exams, they are recommended for doctoral candidacy in line with all other program and college requirements.

Licensure Information

Candidates seeking School Psychologist licensure are required to pass the ETS Praxis II School Psychologist test or the domain specific School Psychology Ohio Assessment for Educators test.

Program Learning Outcomes

Graduates of this program will be able to:

- Demonstrate adequate knowledge and skills associated with both the National Association of School Psychologists' Domains of School Psychology Training and Practice and those domains related to advanced psychological foundations knowledge and research skills as identified by the American Psychological Association (APA).
- Demonstrate an appropriate level of professional deportment.

Full Description

The Ph.D. degree in School Psychology is committed to a scientist-practitioner model of training, which conceptualizes school psychologists as data-oriented problems solvers and transmitters of psychological knowledge and skill. As such, students draw upon the scientific literature as a primary basis for professional practice and focus their research agendas so as to have meaningful implications for practice. In addition, functioning as a scientist-practitioner means that professional practice is conducted in ways that are consistent with the scientific method.

Emphasis in training is placed on the provision of services through research-based practice and data-based decision making. Doctoral students gain competencies, not only in the provision of school psychological services to individual children and youth, but also in the promotion and implementation of systemic, preventative educational and mental health systems. Since the program's emphasis is on the application of psychology in applied educational and mental health settings, students are required to demonstrate competence in the substantive content areas of psychological and educational theory; the scientific, methodological and theoretical foundations of practice in school psychology; data-based decision making; intervention design and evaluation; and cultural and individual diversity.

The school psychology doctorate prepares students to work as leaders in applied practice in educational and mental health settings.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or

certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.
