SPECIAL EDUCATION - M.ED.

College of Education, Health and Human Services
School of Lifespan Development and Educational Sciences
405 White Hall
Kent Campus
330-672-2294
www.kent.edu/ehhs/ides

Description
Admission to the ASL/English Interpreting concentration has been suspended temporarily.
The Master of Education degree in Special Education provides students with advanced understanding of contemporary research and practice issues in special education. Students in the program are typically interested in pursuing enhanced professional competence, career advancement, leadership roles, advocacy and systems change, or preparation for doctoral-level study. Students do not need to have an undergraduate degree in special education (or education) to be successful in the master’s degree, however, should be motivated to develop a deeper understanding of the field of special education.

Students in the M.Ed. Special Education major will develop advanced skills in: designing, implementing, and evaluating research-based practices that meet the special education needs of learners with disabilities; understanding the conceptual underpinnings of special education, as well as policies that guide its implementation in school and community settings; analyzing contemporary issues surrounding special education and the impact of exceptionality on individuals and their families; and understanding the roles that research plays in special education theory.

The M.Ed. degree program does not prepare students for teacher licensure; however, some of the coursework required for the degree may count toward licensure. Students interested in both licensure and a M.Ed. degree will need to apply and be fully admitted into both the master’s degree and the non-degree graduate licensure preparation program.

The Special Education major comprises the following concentrations:

- The ASL/English Interpreting concentration - admission to this concentration has been temporarily suspended.
- The Deaf Education concentration focuses on needs of students who are deaf or hard of hearing.
- The Early Childhood Intervention Specialist concentration focuses on needs of young children with or at risk for developmental delays or disabilities, birth to grade 3 (birth to 8) and their families.
- The General Special Education concentration provides a broad focus on special education across all ages and types of student needs. Students interested in the General Special Education concentration will work with a graduate adviser to develop a personalized plan of study.
- The Mild/Moderate Educational Needs concentration focuses on needs of students with mild to moderate educational needs who most often participate in the general education academic curriculum with special education supports.
- The Moderate/Intensive Educational Needs concentration focuses on students with moderate to intensive educational needs who most often require modifications to the general academic curriculum and/or other extensive special education supports.
- The Pre-Kindergarten Special Needs concentration focuses on the needs of children with or at risk for developmental delays or disabilities.
- The Transition to Work concentration focuses on needs of students with disabilities transitioning to adulthood.

Fully Offered At:
- Online (General Special Education concentration only)
- Kent Campus

Accreditation
The Council of Education of the Deaf

Admission Requirements
- Bachelor’s degree from an accredited college or university
- Minimum 3.000 undergraduate GPA on a 4.000 point scale
- Official transcript(s)
- Goal statement
- Two letters of recommendation
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  - Minimum 550 TOEFLPBT score - paper-based version
  - Minimum 79 TOEFL IBT score - Internet-based version
  - Minimum 77 MELAB score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score

For more information about graduate admissions, please visit the Graduate Studies admission website. For more information on international admission, visit the Office of Global Education's admission website.

Program Learning Outcomes
Graduates of the program will be able to:
1. Understand the instructional methodology to be applied to students with special needs.
2. Understanding the theories of student and adult service provision that guide the profession.
3. Understand and have a conversant knowledge of the legal issues facing special education today.
4. Understand the area in which they choose to specialize in special education (e.g., transition, mild/moderate, deaf education).
5. Be skilled in the instructional and training functions performed by teachers and program leaders in special education.

**Graduation Requirements**

- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Students have six years from the term of first enrollment to complete the degree.
- Students in the Deaf Education and ASL/English Interpreting concentrations must also pass the Sign Language Proficiency Interview (SLPI) at the intermediate level for graduation. ASL/English Interpreting students may also pass the American Sign Language Proficiency Interview (ASLPI) at level 2 as an alternative to the SLPI.
- Students seeking a Reading Endorsement must see advisor before beginning ANY coursework.
