Minimum Total Credit Hours: 15

^1 Students must have an advising appointment with the graduate program coordinator to review former licenses, teaching experiences, employment, as well as field experiences, to determine the necessary courses and field experiences to compliment the student’s existing valid license(s). All coursework for the license must be current. Minimum credit hours will be completed after the advising session to determine which part of the Pre-K profession is most beneficial for additional licensing. Additionally, a program of study must be filed in the Office of Graduate Student Services, 418 White Hall, prior to application for the licensure.

^2 For candidates employed full time in a teaching capacity, an individualized plan for completing the internship will be developed with the faculty advisor. This may include observations, partnering with a preschool teacher, and development of a portfolio to demonstrate competency for teaching in the preschool years.

**Graduation Requirements**

- Minimum C grade is required in each course for endorsement.
- The preschool internship may be completed during the summer I session.

**Licensure Information**

Prior to program completion, the candidate must demonstrate proficiencies in the following areas (including but not limited to): Data literacy and analysis, use of research and assessment data, leadership and collaboration, utilizing and supporting appropriate technology for the discipline, and application of professional dispositions, laws and policies, codes of ethics and professional standards appropriate to their field of specialization.

Candidates seeking Ohio teaching endorsement are required to pass specific requirements in order to apply for an endorsement from the Ohio Department of Education (ODE). Students should consult the Early Childhood Education program for specific program requirements and refer to the Ohio Department of Education - Educator Preparation website for more information on assessments specific to endorsement.

Students who do not apply for endorsement within 12 months of program completion may be subject to additional course requirement, based on standards in force at the time of application.
