The Nursing major comprises the following concentrations:

- The **Adult Gerontology Acute Care Nurse Practitioner** concentration provides a knowledge base for advanced nursing care to adults with complex, acute and chronic illnesses. Clinical practica occur in a variety of hospital settings such as specialty clinics, emergency departments and acute, sub-acute and intensive/critical care areas.

- The **Adult Gerontology Clinical Nurse Specialist** concentration fosters acquisition of the needed competencies to care for patients spanning the entire adult to older-adult spectrum. Class and clinical experiences focus on providing advanced nursing care across the health continuum, from wellness to acute care. Students develop competencies in direct care, consultation, systems leadership, collaboration, coaching, research, ethical decision-making, moral agency and advocacy.

- The **Adult Gerontology Primary Care Nurse Practitioner** concentration allows students to develop advanced practice nursing competencies in health promotion, risk detection, illness prevention and management of acute and chronic illnesses in adults and older adults. Clinical experiences involve direct care in collaboration with other health professionals to maximize the effectiveness of community and health care system services. Clinical practica include primary care offices, such as internal medicine and family practice clinics, managed care offices, emergency departments, free clinics and long-term care and occupational health settings.

- The **Family Nurse Practitioner** concentration allows students to acquire advanced practice nursing competencies to provide continuity of health care to persons across the life span, as well as to maximize the effectiveness of community and health care system services through collaboration with other health professionals. Clinical experiences are offered in a variety of ambulatory care settings and specialty clinics in primary care offices, including family practice, internal medicine, managed care offices, emergency departments, long-term care facilities and academic and occupational health settings.

- The **Nurse Educator** concentration gives students the advanced nursing knowledge in curriculum development, instruction and evaluation for traditional and online learning in academic and staff development settings and the development of in-depth knowledge and expertise in an area of clinical specialty. Emphasis is placed on application of educational theories and principles in curriculum development and evaluation and acquisition of skills in role development as a nurse educator. Students engage in individualized practicum experiences with master educators to gain experience in their desired field of nursing education.

- The **Nursing Administration and Health Systems Leadership** concentration integrates management, leadership and nursing knowledge for students to develop skills and competencies in administration, systems leadership and advanced nursing.

- The **Pediatric Primary Care Nurse Practitioner** concentration focuses on health promotion, illness prevention, risk identification and acute and chronic care of infants, children and adolescents. Practicum experiences take place in outpatient primary care and specialty settings; the experiences offer the opportunity for students to provide individualized and culturally competent advanced practice nursing care to children within the context of their families.

- The **Psychiatric Mental Health Nurse Practitioner** concentration builds on core advanced practice nursing knowledge. The program focuses on knowledge and skill development in mental health assessment and diagnostic reasoning, prescribing and medication management and advanced therapeutic modalities such as individual, group and family psychotherapy.

- The **Women’s Health Nurse Practitioner** concentration prepares students to provide the highest level of primary nursing care for women involving health promotion and disease prevention. Students gain competency in advanced nursing management of common acute and chronic conditions. Students practice in direct care and in collaboration with other health care professionals. Practicum experiences foster development of clinical judgment and primary care skills through faculty mentorship and clinical preceptors in a variety of ambulatory care settings and specialty clinics.

### Fully Offered At:

- Online (concentrations Adult Gerontology Clinical Nurse Specialist, Nurse Educator, Nursing Administration and Health Systems Leadership, Women’s Health Nurse Practitioner)
- Kent Campus (concentrations Adult Gerontology Acute Care Nurse Practitioner, Adult Gerontology Primary Care Nurse Practitioner, Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner)

### Accreditation

The Master of Science in Nursing degree at Kent State University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

### Admission Requirements

- Bachelor's or/and graduate degree from an accredited registered nursing program\(^1\) for unconditional admission
- Minimum 3.000 undergraduate/graduate GPA on a 4.000 point scale\(^2\) for unconditional admission
- Completion of an undergraduate statistics course with a minimum C grade.
- Active, unrestricted registered nurse license in the state in which clinical coursework will be completed.
- Résumé or curriculum vitae.
- Essay (2-3 pages) describing reasons for seeking the master’s degree in the identified specialty and professional goals.
• Three letters of reference from a health care professional or academic faculty who can speak to the applicant's professional and academic abilities.

• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 560 TOEFL PBT score (paper-based version)
  • Minimum 83 TOEFL IBT score (Internet-based version)
  • Minimum 78 MELAB score
  • Minimum 6.5 IELTS score
  • Minimum 55 PTE score

Admission to the M.S.N. degree is a selective process. In the selection process for applicants, program faculty will consider years of registered nurse experience, professional experience relevant to the specific M.S.N. concentration and evidence of scholarship and involvement in the nursing profession as indicated on the applicant’s résumé, along with GPA. Students selected for admission to the nursing program must meet the College of Nursing’s Clinical Compliance Policy. For more information about graduate admission, please visit the Graduate Studies website. For more information on international admission, visit the Office of Global Education's admission website.

1 Applicants with an RN license and a bachelor's degree in a non-nursing field will be considered based on faculty review of a portfolio submitted with the application.

2 Applicants with a lower GPA may be considered for conditional admission according to the University’s Graduate Student Admission Policy.

Program Learning Outcomes

Graduates of this program will be able to:

1. Acquire educational eligibility to meet standards for advanced practice certification or other advanced professional distinction.

2. Acquire competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.

3. Communicate, integrate and apply advanced nursing knowledge and skills to provide evidence-based, culturally sensitive nursing care and promote quality outcomes in nursing and health care.

Minimum Total Credit Hours:  34

Graduation Requirements

- Minimum 300-675 clinical hours, depending on concentration
- Maximum six years of study. Under selected circumstances and upon the consent of the advisor, petitions for extensions of an additional one year to completion may be submitted to the concentration director.

Dual Degree with M.B.A. degree in Business Administration

Students have the opportunity to complete a dual degree program with the M.B.A. degree in Business Administration and the M.S.N degree in Nursing. A separate application must be submitted for each program. Students can view admission requirements for each program on their respective catalog page.

The dual degree is for experienced nurses whose career goals include assuming middle or executive management positions in health services agencies or in health-related companies, or who are interested in starting their own businesses. It combines the strengths of advanced nursing preparation with the practical management knowledge needed to develop significant leadership capabilities.
