CLINICAL EPIDEMIOLOGY - M.S.

College of Public Health
www.kent.edu/publichealth

Examples of Possible Careers*
Medical scientists, except epidemiologists
• 6.1% faster than the average
• 138,300 number of jobs
• $91,510 potential earnings

Contact Information
• Program Coordinator: Karen Baker | kbaker80@kent.edu | 330-672-2845
• Chat with an Admissions Counselor

Fully Offered
• Online
• Hybrid (online/on-ground)
• Kent Campus

Admission Terms
• Fall

*Note
Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description
The Master of Science degree in Clinical Epidemiology is a STEM-designated advanced degree that prepares students in the epidemiological and biostatistical methods related to clinical trials and clinical research. Students will learn advanced methods of observational and experimental study designs and be able to understand disease prevention, development, prognosis and treatment. In addition, students will master and be able to apply good clinical practices, clinical trial design and management, statistical analysis, study monitoring, pharmaceutical research and regulations related to clinical research.

Accreditation
The M.S. degree in Clinical Epidemiology is accredited by the Council on Education for Public Health (CEPH).

Admission Requirements
• Bachelor’s degree from an accredited college or university for unconditional admission

• Minimum 3.0 undergraduate GPA on a 4.000 point scale for unconditional admission
• Official transcript(s)
• GRE scores or other standardized graduate admission exam (GMAT, MCAT, LSAT, PCAT)1
• Goal statement
• Three letters of recommendation
• English Language Proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 550 TOEFL PBT score - paper-based version
  • Minimum 79 TOEFL IBT - Internet-based version
  • Minimum 77 MELAB score
  • Minimum 6.5 IELTS score
  • Minimum 58 PTE score

Applicants to the program who have limited clinical or science backgrounds may be advised to take additional coursework to prepare them for the field. Determinations will be made by the admissions committee when the student is admitted conditionally to the program.

For more information about graduate admissions, please visit the Graduate Studies admission website. For more information on international admission, visit the Office of Global Education’s admission website.

1 GRE scores may be waived, as determined by graduate coordinator using program criteria. Contact the graduate coordinator for more information.

Program Learning Outcomes
Graduates of this program will be able to:
1. Conduct patient-oriented research to understand and modify health outcomes
2. Design and carryout epidemiologic studies
3. Analyze clinical data and understand the sources, strengths and limitations of patient data
4. Design and perform clinical trials
5. Interact with human subjects and describe prognosis, therapies and outcomes

or PHIL 50005 HEALTH CARE ETHICS

Major Electives, choose from the following: 5-6
BST 62020 DATA MANAGEMENT AND LOGIC USING SAS® SOFTWARE
EPI 50015 SCIENTIFIC WRITING FOR CLINICAL RESEARCH
EPI 50017 PHARMACOEPIDEMIOLOGY
EPI 50018 REGULATORY AFFAIRS IN CLINICAL RESEARCH
EPI 50196 INDIVIDUAL INVESTIGATION IN EPIDEMIOLOGY
EPI 63014 EPIDEMIOLOGY OF CHRONIC DISEASES
EPI 63015 EPIDEMIOLOGY OF INFECTIOUS DISEASES

Culminating Requirement, choose from the following: 6
EPI 63192 RESEARCH PRACTICUM IN CLINICAL EPIDEMIOLOGY
EPI 63199 THESIS I

Minimum Total Credit Hours: 36

1 All students will be required to present their thesis or research-based practicum to the College of Public Health at a presentation day, either in person or using videoconferencing technology.

Graduation Requirements
Some students may be required to take science-based courses in addition to the requirements for the degree, and therefore, will graduate with more than the listed credit hours.
