Description
Admission to the Environmental Health Sciences minor has been suspended temporarily as of fall 2018.
The Environmental Health Sciences minor is intended for students who have a strong interest or curricular focus in a natural science major. The minor provides students with foundational concepts in environmental health as it relates to the broad field of public health and allows students to choose elective courses that meet their interests and help to augment their degree program. This includes students in a variety of majors, including, but not limited to, biology, chemistry, geology, geography, physics, botany and zoology.

Students who complete the required coursework and have 30 credit hours of coursework in biology, chemistry, physics, geology, math or statistics can pursue a Sanitarian in Training (SIT) career path in State of Ohio agencies to become a Registered Sanitarian (RS) and are well equipped to enter the workforce in a variety of career paths.

Fully Offered At:
• Kent Campus

Admission Requirements
Admission to a minor is open to students declared in a bachelor’s degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.
