Mission
The Regional Campuses of Kent State University have a long standing history of providing northeast Ohioans with access to Kent State University without leaving their community. Each campus is engaged within its region and has made significant contributions to the civic, cultural, and economic well being of Northeast Ohio’s communities. The Campuses have distinguished themselves with applied programs that respond to local needs, an emphasis on workforce preparation and a commitment to providing higher education that is broadly accessible. The Campuses carry out this mission through the efforts of a faculty committed to the highest standards in the scholarships of discovery, integration, application, teaching and university citizenship. Faculty members actively pursue a variety of creative endeavors, regularly contribute to the scholarship in their disciplines, take pride in their continuing pedagogical successes, and are recognized by the wider University community with teaching and professional development awards. Regional campus faculty are visible citizens in the communities they serve, as well as at every level of university governance.
