CONSTRUCTION MANAGEMENT - B.S.

College of Architecture and Environmental Design
www.kent.edu/caed

About This Program
Build your future with the Construction Management bachelor’s degree program. Our program prepares graduates for leadership in the increasingly complex, sophisticated and rewarding field of construction management through access to advanced technologies, leading experts, hands-on training and industry insights that prepare you to lead in a variety of construction management roles. Read more...

Contact Information

Program Delivery
• Delivery: In person
• Location: Kent Campus

Examples of Possible Careers and Salaries*
Construction managers
• 8.5% much faster than the average
• 476,700 number of jobs
• $97,180 potential earnings

Accreditation
The B.S. degree in Construction Management is accredited by the American Council for Construction Education (ACCE).

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements
The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State’s campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of English language proficiency unless they meet specific exceptions. For more information, visit the admissions website for international students.

Transfer Students: Students who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students. For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar’s website.

Admission policies for undergraduate students may be found in the University Catalog.

Some programs may require that students meet certain requirements before progressing through the program. For programs with progression requirements, the information is shown on the Coursework tab.

Additional Requirements (courses do not count in major GPA)

ACCT 23020 | INTRODUCTION TO FINANCIAL ACCOUNTING                | 3            |
ECON 22060 | PRINCIPLES OF MICROECONOMICS (KSS)                  | 3            |
ECON 22061 PRINCIPLES OF MACROECONOMICS (KSS)  
ENG 20002 INTRODUCTION TO TECHNICAL WRITING  
FIN 26074 LEGAL ENVIRONMENT OF BUSINESS  
MATH 11012 INTUITIVE CALCULUS (KMCR)  
MATH 11022 TRIGONOMETRY (KMCR)  
MGMT 24163 PRINCIPLES OF MANAGEMENT  
MKTG 25010 PRINCIPLES OF MARKETING  
PHY 13001 GENERAL COLLEGE PHYSICS I (KBS)  
PHY 13021 GENERAL COLLEGE PHYSICS LABORATORY I (KLAB)  
UC 10001 FLASHES 101  
Kent Core Composition  
Kent Core Humanities and Fine Arts (minimum one course from each)  
Kent Core Social Sciences (must be from two disciplines)  
Kent Core Basic Sciences (total credit hours in this category must be 8 for this major)  
General Elective (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)  
Additional Requirements or Concentrations  
Choose from the following:  
Additional Requirements for Students Not Declaring a Concentration  
Civil Management Concentration  
Mechanical and Electrical Management Concentration  
Safety Management Concentration  
Minimum Total Credit Hours:  

1 Students declaring a dual degree program with the B.A. in Architectural Studies major may substitute AED 10102 for CMGT 22200.  
2 A minimum C grade must be earned to fulfill the writing-intensive requirement.  

Additional Requirements for Students Not Declaring a Concentration  
Code  
CMGT 10001 INTRODUCTION TO CONSTRUCTION MANAGEMENT  
MATH 11022 TRIGONOMETRY (KMCR)  
UC 10001 FLASHES 101  
From the following:  
Additional Requirements (courses do not count in major GPA)  
Construction Management (CMGT) Upper-Division Electives (30000 or 40000 level)  
College of Architecture and Environmental Design Elective, choose from the following:  
Any Architectural Studies (ARCS) course  
Any Architecture (ARCH) course  
Any Architecture and Environmental Design (AED) course  
Any Construction Management (CMGT) course  
Any Interior Design (ID) course  
Minimum Total Credit Hours:  

1 Maximum 6 credit hours of CMGT 33092 may be applied toward the major.  
2 Special approval is required to take elective courses in the following subjects: Architectural Studies (ARCS), Architecture (ARCH), Architecture and Environmental Design (AED) and Interior Design (ID).  

Civil Management Concentration Requirements  
Code  
CMGT 42053 SUBCONTRACTOR LEADERSHIP AND PRACTICES  
CMGT 42054 CIVIL ESTIMATING  
CMGT 42055 CIVIL UTILITY SYSTEMS  
CMGT 42056 SOILS AND MATERIALS  
Minimum Total Credit Hours:  

1 Additional Requirements for Students Not Declaring a Concentration  
Code  
CMGT 42030 BUILDING INFORMATION MODELING FOR CONSTRUCTION MANAGEMENT  
CMGT 42051 ALTERNATIVE ENERGY SYSTEMS IN BUILDING DESIGN  
CMGT 42052 MECHANICAL AND ELECTRICAL ESTIMATING

### University Requirements

All students in a bachelor’s degree program at Kent State University must complete the following university requirements for graduation.

**NOTE:** University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

- Flashes 101 (UC 10001) 1 credit hour
- Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.
- Diversity Domestic/Global (DIVD/DIVG) 2 courses
- Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.
- Experiential Learning Requirement (ELR) varies
- Students must successfully complete one course or approved experience.
- Kent Core (see table below) 36-37 credit hours
- Writing-Intensive Course (WIC) 1 course
- Students must earn a minimum C grade in the course.
- Upper-Division Requirement 39 credit hours
- Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.

**Total Credit Hour Requirement**

120 credit hours

### Kent Core Requirements

- Kent Core Composition (KCMP) 6
- Kent Core Mathematics and Critical Reasoning (KMCR) 3
- Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each) 9
- Kent Core Social Sciences (KSS) (must be from two disciplines) 6
- Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory) 6-7
- Kent Core Additional (KADL) 6

**Total Credit Hours:** 36-37

### Program Learning Outcomes

Graduates of this program will be able to:

1. Understand construction materials, methods and processes.
2. Competently read and understand construction drawings and specifications.
3. Control and manage the scope of work for a construction jobsite.
4. Maintain a safe work environment.
5. Quantify takeoffs and cost estimates.
6. Understand the scheduling process and use computer software to create construction schedules.
7. Uphold ethical and professional standards.
8. Use critical thinking and problem solving skills to analyze and perform functions within construction projects.
9. Communicate effectively to operate effectively in a construction management environment.
10. Understand construction laws, codes and regulations.

### Full Description

The Bachelor of Science degree in Construction Management employs a professional-service approach that applies effective management techniques and oversight to the building and management of construction projects. Students learn the business of construction...
from inception to completion of a project—including emphasis on construction materials and methods—that will enable them to estimate costs, schedule work, oversee construction worksite activities and manage projects.

The Construction Management major includes the following optional concentrations:

- **The Civil Management** concentration offers students an opportunity to further explore civil construction estimating functions, utility systems, soils and subcontractor leadership. Focusing on the critical systems that are needed on all projects, this concentration provides construction managers with the tools to navigate civil construction on any project.

- **The Mechanical and Electrical Management** concentration offers students expertise in mechanical systems. By exposing students to sustainable building technologies, specific mechanical and electrical estimating, BIM and leadership, this concentration sets students apart in knowledge base and experience. Construction managers are more effective with an in-depth understanding of critical MEP systems.

- **The Safety Management** concentration is for those wishing to pursue a career in safety and/or construction managers looking to expand their knowledge in safety related to construction. Students take advanced OSHA and safety courses while exposing themselves to insurance and workers’ compensation laws and procedures. Safety is the #1 priority of project management teams, and this concentration looks to provide future leaders with the tools to lead a safe job site.

Cooperative education opportunities are available to students in construction companies and architect/engineering firms in the region. In addition, students have an opportunity to pursue a dual degree with the B.A. degree in Architectural Studies.
