MECHANICAL ENGINEERING TECHNOLOGY - B.S.

College of Aeronautics and Engineering
www.kent.edu/cae

About This Program
Take your engineering career to the next level with Kent State's Bachelor of Science in Mechanical Engineering Technology program. With a focus on both theory and practice, this program prepares you for a wide range of mechanical engineering technology roles in industries such as aerospace, automotive, manufacturing and more. You'll have access to state-of-the-art facilities and experienced faculty who are dedicated to helping you succeed. Read more...

Program Delivery
• Delivery:  
  • In person
• Location:  
  • Kent Campus

Examples of Possible Careers and Salaries*
Mechanical engineering technologists and technicians  
• 3.1% about as fast as the average  
• 43,500 number of jobs  
• $58,230 potential earnings

Calibration technologists and technicians and engineering technologists and technicians, except drafters, all other  
• 2.1% slower than the average  
• 91,600 number of jobs  
• $64,190 potential earnings

Electro-mechanical and mechatronics technologists and technicians  
• 3.0% about as fast as the average  
• 14,600 number of jobs  
• $59,800 potential earnings

Mechanical engineers  
• 3.9% about as fast as the average  
• 316,300 number of jobs  
• $90,160 potential earnings

Accreditation
The B.S. degree in Mechanical Engineering Technology is accredited by the Association of Technology, Management and Applied Engineering (ATMAE).

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements
The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of English language proficiency unless they meet specific exceptions. For more information, visit the admissions website for international students.

Transfer Students: Students who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students. For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar's website. Admission policies for undergraduate students may be found in the University Catalog.

ENGR 47200  SYSTEMS ENGINEERING 3

Mathematics Electives, choose from the following:
- UC 10001
- PHY 13002
- PHY 13001
- ENG 20002
- ECON 22060

Additional Requirements (courses do not count in major GPA):
- ACCT 23020
- CHEM 10050
- COMM 15000
- ECON 22060
- ENG 20002
- PHY 13001
- & PHY 13021
- or PHY 23101
- PHY 13002
- & PHY 13022
- or PHY 23102
- UC 10001

Mathematics Electives, choose from the following:
- MATH 11022 & MATH 12002
- MATH 12011 & MATH 12012

Kent Core Composition 6
Kent Core Humanities and Fine Arts (minimum one course from each) 9
Kent Core Social Sciences (must be from two disciplines) (cannot be ECON) 3

General Electives (total credit hours depends on earning 120 credits hour, including 39 upper-division credit hours) 5

Minimum Total Credit Hours: 120

1. A minimum C grade must be earned to fulfill the writing-intensive requirement.
2. Students who desire to change their major to Aerospace Engineering or Mechatronics Engineering should take PHY 23101 and PHY 23102. Failing to do so may result in having to retake physics to complete your degree.
3. Applicants to this program should understand that this is a math-intensive program. Students admitted to the program are expected to demonstrate prerequisite knowledge on a math placement exam (the ALEKS exam) prior to starting their first semester. Students who do not obtain the minimum score required to place into the required math courses are at risk of delaying graduation.

Roadmap

This roadmap is a recommended semester-by-semester plan of study for this major. However, courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

Semester One
- COMM 15000
- ENGR 21000
- & EERT 12000

Semester Two
- ENGR 11000
- ENGR 21020 & ENGR 21022

Semester Three
- ECON 22060
- ENGR 23585
- UC 10001

Semester Four
- ACCT 23020
CHEM 10050  FUNDAMENTALS OF CHEMISTRY (KBS)  3
ENG 20002  INTRODUCTION TO TECHNICAL WRITING  3
Electricity and Electronics Electives  4-7
Kent Core Requirement  3

Credit Hours  16

Semester Five
ENGR 30001  APPLIED THERMODYNAMICS  3
ENGR 33031  PROGRAMMABLE LOGIC CONTROLLERS  3
ENGR 33111  STATICS AND STRENGTH OF MATERIALS  3
or MERT 22005
and MERT 22007
ENGR 47200  SYSTEMS ENGINEERING  3
Programming Elective(s)  3-4

Credit Hours  15

Semester Six
ENGR 31000  CULTURAL DYNAMICS TECHNOLOGY (DIVD) (WIC)  3
ENGR 33033  HYDRAULICS/PNEUMATICS  3
ENGR 33364  METALLURGY AND MATERIALS SCIENCE  3
Kent Core Requirement  3
Kent Core Requirement  3

Credit Hours  15

Semester Seven
ENGR 31016  MANUFACTURING TECHNOLOGY  3
ENGR 43550  COMPUTER-AIDED MANUFACTURING  3
ENGR 43580  COMPUTER-AIDED MACHINE DESIGN  3
Engineering (ENGR) Elective  3
General Elective  3

Credit Hours  15

Semester Eight
ENGR 33333  INDUSTRIAL ROBOTICS  3
ENGR 43080  INDUSTRIAL AND ENVIRONMENTAL SAFETY  3
ENGR 43899  APPLIED ENGINEERING CAPSTONE (ELR)  3
Engineering (ENGR) Elective  3
General Elective  2

Credit Hours  15

Minimum Total Credit Hours:  120

University Requirements

All students in a bachelor’s degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)  1 credit hour

Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.

Diversity Domestic/Global (DIVD/DIVG)  2 courses

Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.

Experiential Learning Requirement (ELR)  varies

Students must successfully complete one course or approved experience.

Kent Core (see table below)  36-37 credit hours

Writing-Intensive Course (WIC)  1 course

Students must earn a minimum C grade in the course.

Upper-Division Requirement  39 credit hours

Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.

Total Credit Hour Requirement  120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)  6
Kent Core Mathematics and Critical Reasoning (KMCR)  3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)  9
Kent Core Social Sciences (KSS) (must be from two disciplines)  6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)  6-7
Kent Core Additional (KADL)  6

Total Credit Hours:  36-37

Program Learning Outcomes

Graduates of this program will be able to:

1. Apply knowledge, techniques, skills and modern tools of mathematics, science, engineering and technology to solve broadly defined engineering problems appropriate to the discipline.
2. Design systems, components or processes meeting specified needs for broadly defined engineering problems appropriate to the discipline.
3. Apply written, oral and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.
4. Conduct standard tests, measurements and experiments and analyze and interpret the results to improve processes.
5. Function effectively as a member as well as a leader on technical teams.

Full Description

The Bachelor of Science degree in Mechanical Engineering Technology teaches design, operation, installation, maintenance and analysis of machinery. The program prepares students to become highly technical professionals in current and emerging fields using mechanical and computer-aided engineering. Students learn to develop innovative solutions to problems encountered in manufacturing.

Information on the program’s education objectives and student enrollment and graduation data can be found on the college website.

Applicants to this program should understand that this is a math-intensive program.

Students may apply early to the Master of Engineering Technology degree (Mechanical Engineering Technology concentration) and double count 9 credit hours of graduate courses toward both degree programs. See the Combined Bachelor’s/Master’s Degree Program policy in the University Catalog for more information.
