MECHATRONICS ENGINEERING - M.S.

College of Aeronautics and Engineering
www.kent.edu/cae

About This Program
Looking to advance your career in the field of mechatronics engineering? The M.S. degree in Mechatronics Engineering is the perfect choice. Our program provides students with the skills and knowledge needed to design and develop advanced systems that integrate mechanical, electrical and computer systems. With a focus on real-world applications and hands-on learning, graduates are prepared for careers in industries such as automotive, aerospace and robotics. Read more...

Contact Information
• Program Coordinator: D. Blake Stringer | caegraduatemstudies@kent.edu | 330-672-2892
• Connect with an Admissions Counselor: U.S. Student | International Student

Program Delivery
• Delivery:
  • In person
• Location:
  • Kent Campus

Examples of Possible Careers and Salaries*

Architectural and engineering managers
• 2.6% slower than the average
• 198,100 number of jobs
• $149,530 potential earnings

Engineering teachers, postsecondary
• 8.6% much faster than the average
• 44,600 number of jobs
• $103,600 potential earnings

Engineers, all other
• 1.3% slower than the average
• 170,100 number of jobs
• $103,380 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements
• Bachelor’s degree in mechatronics engineering or closely related area (e.g., electrical engineering or mechanical engineering) from an accredited college or university
• Minimum 2.750 GPA on a 4.000 point scale
• Official transcript(s) from each institution in which eight or more semester credit hours were attempted
• Goal Statement
• Three letters of recommendation
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 550 TOEFL PBT score
  • Minimum 79 TOEFL IBT score
  • Minimum 77 MELAB score
  • Minimum 6.5 IELTS score
  • Minimum 58 PTE score
  • Minimum 110 Duolingo English score

Application Deadlines
• Fall Semester
  • Application deadline: November 1

Applications submitted after this deadline will be considered on a space-available basis.

Mechatronics Engineering - M.S.
1. Conduct literature searches, comprehend advanced research materials and uncover connections between related work.
2. Perform research, discovery and integration by applying advanced knowledge of mechatronics engineering.
3. Communicate problems and solutions in mechatronics engineering clearly, both verbally and in writing.

Full Description
The Master of Science degree in Mechatronics Engineering provides an advanced theoretical and/or research-oriented curriculum with significant depth in mechatronics-related discipline, beyond the general fundamentals of the engineering bachelor's degree.

Program Learning Outcomes
Graduates of this program will be able to:
