Culminating Requirements

ENGR 85098	RESEARCH (repeated for 9 credit hours total)	9
ENGR 85199	DISSERTATION I ²	30

Minimum Total Credit Hours for Post-Baccalaureate Students:	90
Minimum Total Credit Hours for Post-Master's Students:	60

¹ Post-baccalaureate students may apply toward the 30 credit hours a maximum 15 credit hours of coursework outside the College of Aeronautics and Engineering and 9 credit hours of research (maximum 18 credit hours total of research toward the degree).

² Each doctoral candidate, upon admission to candidacy, must register for ENGR 85199 for a total of 30 credit hours. It is expected that a doctoral candidate will continuously register for ENGR 85199, and thereafter ENGR 85299, each semester, until all requirements for the degree have been met. The dissertation is specialized research, leading to a definitive contribution to the candidate's research focus-area. This contribution should be of sufficient importance to warrant publication in a recognized journal. The candidate must successfully propose and defend their research dissertation in a public setting.
