Fully Offered
• Delivery:
  • In person
• Location:
  • Kent Campus

Admission Terms
• Fall

Description
The Master of Science degree in Biomedical Sciences—Cellular and Molecular Biology prepares creative research scientists for careers in teaching, research and biotechnology. Graduates possess an in-depth comprehension of experimental design at the cellular and molecular levels of biological organization, as well as competency in current techniques in the discipline. Major research emphases include signal transduction, biochemistry and pathobiology, gene regulation, cell systems biology, cell and tissue ultrastructure, membrane structure and function, molecular aspects of neurobiology and endocrinology, genetics and metabolism of microorganisms, virology and immunology and enzymology with an emphasis on protein dynamics and folding, as well as cytochrome P-450s.

Program faculty are drawn from several departments at Kent State University, Cleveland Clinic Foundation and Northeast Ohio Medical University (NEOMED). Additional participant faculty are located at area clinical facilities and hospitals. This multi-departmental and inter-institutional structure gives master’s student access to the talents of a broadly diverse research faculty, as well as significant research facilities and resources.

The M.S. degree in Biomedical Sciences—Cellular and Molecular Biology is offered in consortium with the Cleveland Clinic and Northeast Ohio Medical University.

The Biomedical Sciences—Cellular and Molecular Biology major comprises the following concentrations:
• Cellular Biology and Structure
• Molecular Biology and Genetics

Admission Requirements
• Bachelor’s degree from an accredited college or university
• Minimum 2.750 undergraduate GPA on a 4.000-point scale
• Academic preparation adequate to perform graduate work in the desired field (typically two years of chemistry, one year of mathematics, one year of physics and courses in anthropology, biology and/or psychology)
• Official transcript(s)
• GRE scores (effective for spring 2023 admissions, the GRE will no longer be required)
• Goal statement
• Three letters of recommendation
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 600 TOEFL PBT score (paper-based version)
  • Minimum 100 TOEFL IBT score (Internet-based version)
  • Minimum 85 MELAB score
  • Minimum 7.0 IELTS score
  • Minimum 68 PTE score
  • Minimum 120 Duolingo English test score

Admission with deficiencies may be accorded, but these must be made up during the first two years of graduate study. For more information about graduate admissions, visit the graduate admission website. For more information on international admission, visit the Office of Global Education’s admission website.

Program Learning Outcomes
Graduates of this program will be able to:
1. Publish their research in peer-reviewed journals
2. Demonstrate the ability to teach undergraduate students
3. Seek employment in fields that reflect their area of training
