About This Program
The Ph.D. in Biomedical Sciences-Pharmacology program offers a comprehensive education in pharmacology, toxicology, and related fields, preparing you to become a leader in industry, government, or academia. With a focus on hands-on experience and collaboration, you'll have the opportunity to work with experienced researchers in state-of-the-art facilities, advancing your understanding of drug development and preparing you for a fulfilling career in this exciting field. Contact Information
• Director: John Johnson | BMS@kent.edu | 330-672-3849
• Connect with an Admissions Counselor: U.S. Student | International Student

Program Delivery
• Delivery:
  • In person
• Location:
  • Kent Campus

Admission Requirements
• Bachelor's degree or higher from an accredited college or university
• Minimum 2.750 undergraduate/graduate GPA on a 4.000-point scale
• Academic preparation adequate to complete graduate coursework (recommended courses in chemistry, biochemistry, and physiology)
• Curriculum vitae/résumé is required starting with the fall 2024 admission term
• Official transcript(s)
• Goal statement indicating the applicant's interests in pharmacology, their research experience and career aspirations
• Three letters of recommendation
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 600 TOEFL PBT score
  • Minimum 100 TOEFL IBT score
  • Minimum 85 MELAB score
  • Minimum 7.0 IELTS score
  • Minimum 68 PTE score
  • Minimum 120 Duolingo English score

Application Deadlines
• Fall Semester
  • Application deadline: December 1
Applications submitted after this deadline will be considered on a space-available basis.

Minimum Total Credit Hours for Post-Baccalaureate Students: 90
Minimum Total Credit Hours for Post-Master’s Students: 60

Graduation Requirements
Post-baccalaureate students must complete a minimum 60 credit hours, and post-master’s students a minimum 30 credit hours, of coursework prior to dissertation.

Program Learning Outcomes
Graduates of this program will be able to:
1. Publish their research in peer-reviewed journals.
2. Demonstrate the ability to teach undergraduate students.
3. Seek employment in fields that reflect their area of training.

Full Description

The Ph.D. degree in Biomedical Sciences—Pharmacology provides substantial opportunity for students to conduct research in molecular targeting, drug design and drug delivery in developing new approaches to treat disease. The multidisciplinary program enrolls a select group of graduate students interested in research-based careers in pharmacology and provides a balance of classroom and laboratory work involving faculty at Kent State University and Northeast Ohio Medical University (NEOMED). Strong research foci exist in the areas of cardiovascular and metabolic diseases, neurodegenerative and blood brain barrier pharmacology. Interdisciplinary approaches to research and theoretical problems are strongly emphasized.

The Ph.D. degree in Biomedical Sciences—Pharmacology is offered in consortium with Cleveland Clinic and Northeast Ohio Medical University.
