CYBERCRIMINOLOGY - B.S.

College of Arts and Sciences

School of Multidisciplinary Social Sciences and Humanities www.kent.edu/multidisciplinary-studies

About This Program

Dive into the thrilling world of cybercriminology and become a mastermind in the fight against digital threats! In Kent State's bachelor's degree, you'll unlock the secrets of cybercrime investigation, digital forensics and cyber law enforcement. Harness the power of technology to outsmart hackers, track down cyber criminals and safeguard the digital realm. With hands-on training, expert faculty and real-world simulations, you'll emerge ready to defend against the ever-evolving landscape of cyber threats. Read more...

Examples of Possible Careers and Salaries*

Computer and information systems managers

- 10.4% much faster than the average
- · 461,000 number of jobs
- \$151,150 potential earnings

Computer network support specialists

- · 6.4% faster than the average
- · 195,100 number of jobs
- \$65,450 potential earnings

Database administrators and architects

- 9.7% much faster than the average
- · 132,500 number of jobs
- · \$98,860 potential earnings

Detectives and criminal investigators

- 1.1% slower than the average
- · 113,500 number of jobs
- \$86,940 potential earnings

Information security analysts

- · 31.2% much faster than the average
- · 131,000 number of jobs
- \$103,590 potential earnings

Network and computer systems administrators

- 4.3% about as fast as the average
- · 373,900 number of jobs
- \$84,810 potential earnings

Additional Careers

- · Computer forensic analysts
- · Cybercrime investigators
- · Digital forensic investigators
- · District attorney's office investigators
- · Forensic analysts
- Incident managers
- · Law enforcement agency (local, state, federal)
- · Malware analysts
- · Penetration testers
- · Security architects
- · State department

Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special

^{*} Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics'

talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning a minimum 525 TOEFL score (71 on the Internet-based version), minimum 75 MELAB score, minimum 6.0 IELTS score or minimum 48 PTE Academic score, or by completing the ELS level 112 Intensive Program. For more information, visit the admissions website for international students.

Transfer Students: Students who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students. For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar's website.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Some programs may require that students meet certain requirements before progressing through the program. For programs with progression requirements, the information is shown on the program's Coursework tab.

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001) 1 credit

Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours
Kent Core Requirements	
Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	36-37

Program Learning Outcomes

Graduates of this program will be able to:

- 1. Describe the scope of cyber threats and crimes.
- Apply criminological theories to the commission of computer-related crimes.
- 3. Apply a solid foundational grounding in digital technologies to digital investigations to combat cybercrime or threats.
- Compare and contrast digital and traditional evidence as it relates to investigation, processing and use in prosecution.
- Define and apply policies that include privacy, regulatory, legal and ethical considerations as they relate to responding to and/or investigating cyber threats.

Full Description

The Bachelor of Science degree in Cybercriminology incorporates the understanding of computer systems and networks with criminal behavior and processes in identifying, preventing and investigating cyber-related threats and crimes. Students are involved in project-based research and other experiential learning opportunities in technology and the legal, ethical and criminology aspects of modern crime, making them well prepared for work in a myriad of professional positions ranging from security/intelligence analysts and investigators to network and security administrators.
