The Master of Science in Accounting degree is for students interested in higher-level positions in banking, taxation, insurance or any company with a financial division. More than just focusing on debits and credits, the M.S.A. degree promotes critical thinking, hands-on application of technology and effective communication and ethical decision-making skills. Graduates pursue careers in auditing, taxation, fraud investigation, law enforcement, investment banking, management and consulting. The flexible combination of required coursework in accounting and electives from a wide variety of business disciplines provides students with a strong foundation in accounting, as well as an understanding of the practical applications of the discipline across all facets of business.

Graduates of the M.S.A. degree meet the educational requirement to sit for a variety of professional certifications, including becoming a Certified Public Accountant (CPA) or Certified Management Accountant (CMA).

1 Refer to the most recent academic requirements for admission to the CPA exam issued by the Accountancy Board of Ohio.

Professional Licensure Disclosure
This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State’s website for professional licensure disclosure.

Program Learning Outcomes
Graduates of this program will be able to:

1. Analyze, evaluate and report on complex accounting and economic transactions using the accounting framework.
2. Apply research and analytical skills to solve accounting problems.
3. Given an ethical dilemma in an accounting setting, analyze the issue, apply an ethical framework and develop a resolution.
4. Effectively communicate using oral and written communication skills in a business setting.
5. Assemble, cleanse and analyze the information provided by information systems, and prepare summary reports useful for business decision-making.
