Description

The Ceramics minor is designed to encourage students from all areas of the university to explore working creatively with clay. Students may explore making functional pots and sculptural objects using a variety of wheel throwing and hand-building techniques, or they may choose to work sculpturally in conjunction with other methods of creating three-dimensional objects. Flexibility in the curriculum affords students the opportunity to design a program intended to meet individual needs and freedom of expression.

Admission Requirements

Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.
