Description

The Glass minor is designed to encourage students from all areas of the university to explore working creatively with glass. Students can take coursework in glassblowing, frameworking, and kiln-formed glass, which creates a platform for broad understanding of the material and creative forces at play in the medium. Flexibility in the curriculum provides students with choices to design a program to meet individual needs and freedom of expression.

Admission Requirements

Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.
