Admission Requirements
The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

Freshman Students: Admission to this degree is selective. The B.F.A. degree requires applicants to have a minimum 2.750 overall Kent State GPA and the support of the Fashion Design faculty. To be considered for the Bachelor of Fine Arts degree, students must be enrolled in junior-level fashion design studio courses and need to submit a “Letter of Intent” and a “B.F.A. Proposal” by the established deadlines.

Transfer Students: Admission to the Fashion Design major requires a minimum 2.750 overall GPA based on minimum 24 credit hours of college-level coursework at an accredited institution. Those students meeting this GPA requirement but with fewer than 24 credit hours will be evaluated as new freshmen.

Students who do not meet the criteria for admission to the Fashion Design major may be eligible for admission to the Pre-Fashion Design and Merchandising non-degree major. In addition, students who do not meet the admission criteria may initiate the process for declaring the B.A. degree in Fashion Design after completing minimum 12 credit hours of non-developmental coursework at Kent State University and earning a minimum 2.750 overall GPA.

International Students: All international students must provide proof of English language proficiency unless they meet specific exceptions. For more information, visit the admissions website for international students.

**Program Learning Outcomes**

Graduates of this program will be able to:

1. Understand the fashion industry, fashion markets, fashion products and services.
2. Demonstrate understanding of integrating conceptual, technical and production design knowledge and skills, leading to a synthesis of the design process from concept to production.
3. Apply knowledge and skills in the use of basic tools, techniques and processes sufficient to produce work from draft or specifications to finished product, including skills in portfolio preparation.
4. Articulate conceptual and critical thinking applicable to the fashion industry.
5. Employ research processes and practices employed in the fashion industry.
6. Articulate professionalism and communication skills in the appropriate creative industry.

**Full Description**

The Bachelor of Fine Arts degree in Fashion Design integrates conceptual, technical and production design knowledge and skills, leading to a synthesis of the design process from concept to production. These processes include color, design and trend research; technical sketching and rendered illustration; pattern-making and garment construction; analysis of appropriate fit and fabric selection; best practices in sustainable methods and knowledge and the ability to communicate specifications for production using industry standards appropriate to specific markets.

The degree program prepares students for professional careers by developing technical competency, creative/independent problem solving and conceptual understanding necessary for the challenges of a career in the creative industries. Students develop portfolios for presentation at industry interviews and are prepared to be strongly competitive for any entry-level design position in the industry. In addition, students participate in a study abroad/away experience, which includes opportunities to study for a semester in New York City and Florence, Italy, as well as through collaborative partnership programs with the Paris American Academy, Hong Kong Polytechnic University and Regent's University in London.

The B.F.A. degree in Fashion Design engages students in a focused-study thesis project (collection development) as a capstone experience that results in submitting their collection for formal review by faculty and industry designer-critics, followed by public presentation in a fashion venue and completion of a thesis "magazine" (print collateral).
