HEALTH INFORMATICS - GRADUATE CERTIFICATE

College of Communication and Information
School of Information
www.kent.edu/iSchool

About This Program
The Health Informatics graduate certificate prepares graduates to assume entry level, mid-career or senior level positions within healthcare systems. Based on the students’ experience, the certificate is customizable to their interests and career goals within health informatics venues.

- Students enrolled in the certificate can apply for admission to the master's degree and apply a maximum of 12 credit hours taken for the certificate program toward the master's program requirements.

**Program Learning Outcomes**

Graduates of the program will be able to:

1. Reconcile the needs of clinical and non-clinical users of health information systems utilizing workflow analysis, systems analysis and project-management principles.
2. Analyze collected data of health information systems, utilizing principles of data mining, statistics and clinical analytics.
3. Manage the implementation of health information systems in multiple health care venues using principles of organizational dynamics and change management.
4. Facilitate communication between clinical and non-clinical users of health information systems.
5. Successfully obtain the credential of Certified Associate in Health Information Systems.
