JOURNALISM EDUCATION - M.A.

College of Communication and Information
School of Media and Journalism
www.kent.edu/mdj

About This Program
The M.A. in Journalism Education is designed for high school teachers and transitioning media professionals. Course content focuses on what teachers and media advisers need to know to be effective journalism educators in the digital age: from the latest technology for multimedia storytelling to strategies to protect students’ First Amendment rights. • Evidence of the creation of a digital portfolio to showcase students’ deliverables and to capture their reflections as they complete the program as approved by graduate coordinator.

• No more than one-half of a graduate student’s coursework may be taken in 50000-level courses.
• Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes
Graduates of this program will be able to:

1. Recognize and advocate for the importance of journalism education to the future of journalism.
2. Employ best practices in journalism education.
3. Articulate the role of media in a democratic society.
4. Demonstrate fundamental journalism skills through the production of media content.
5. Analyze and engage with the dynamics of the changing contemporary media environment.
6. Discuss the fundamentals of media literacy and relate them to the context of journalism education.

Full Description
The Master of Arts degree in Journalism Education is intended for those seeking to teach or advise student journalists. The program is affiliated with Kent State’s Center for Scholastic Journalism, and faculty include some of the most-recognized high school journalism educators in the country.

The program provides continuing education opportunities to high school teachers who are responsible for teaching and advising an array of student media content, including school social media channels, yearbook, school newspaper, video and photography. The program also serves practicing journalists who are transitioning to teaching in the higher education arena.

The curriculum focuses on foundational knowledge in media and journalism, as well as pedagogical practices that students can apply to secondary and post-secondary teaching environments. The program highlights the core concepts of First Amendment press freedom, media literacy and the role of media in society — scaffolding that knowledge with content creation skills across an array of media platforms. Interwoven with those knowledge areas and skillsets are best practices in the teaching of scholastic media to high school and college students.

Students complete a culminating integrated learning experience through designated course assignments from each of the six core courses. Each of the six assignments give the student the opportunity to create a deliverable suitable for use in a classroom setting such as a lesson plan, class activity, handbook or instruction manual or other asset.
