Description

The Bachelor of Fine Arts degree in Visual Communication Design prepares students for design and illustration professions. Students develop technical proficiency and design expertise in the organization of imagery and typography to communicate information in two-dimensional and three-dimensional forms using interactive media, environments and motion design. Students produce work for print, video, screen and interactive experiences, as well as package design, exhibition design and environmental wayfinding.

This major leads to a professional degree and focuses on intensive work in the visual arts. The B.F.A. degree consists of approximately two-thirds of the coursework in the creation and study of the visual arts, with the remainder in liberal/general studies. Because of the greater emphasis on upper-level studio courses, the B.F.A. degree allows students an opportunity to build greater expertise in a given area of the field. The B.F.A. degree is for students planning to pursue a career in visual communication design and want to leave Kent State with a strong portfolio.

There are many study abroad/away opportunities. For more information contact the Office of Global Education or coordinator of the college's International Study Programs.

Admission Requirements

Admission to this major is selective.¹ The B.F.A. degree requires a minimum 2.700 major GPA and a 2.000 overall GPA calculated after the completion of VCD 33000.

The School of Visual Communication Design recognizes that competence in visual design as well as intellectual capacity are necessary qualities in students who plan to prepare for a career in visual communication design. Therefore, the right is reserved to require evidence of achievement in design and related areas from all students endeavoring to enroll for the first time in a majors in the school. Early admission is recommended.

Each transfer student will be evaluated individually in terms of his or her ability to perform within the program. Transfer applicants' strengths and deficiencies will be considered, and their transfer credits will reflect that consideration. The director of the School of Visual Communication Design may impose additional requirements considered reasonable and necessary.

¹ Effective spring 2023, admission to the program will no longer be selective.

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.
