Program Delivery
• Delivery:
  • In person
• Location:
  • Kent Campus

Examples of Possible Careers and Salaries*

Athletic trainers
• 16.2% much faster than the average
• 32,100 number of jobs
• $49,860 potential earnings

Health specialties teachers, postsecondary
• 20.5% much faster than the average
• 254,000 number of jobs
• $99,090 potential earnings

Accreditation
Commission on the Accreditation of Athletic Training Education

Admission Requirements
Kent State University participates in the ATCAS program – a centralized athletic training application system. Application through the ATCAS system will generate a file for our university when Kent State is selected. Upon completion of the ATCAS file, your application materials will be copied into the KSU system. If accepted, you will be contacted to complete the Data Information portion of the KSU CollegeNet application only. Formal admission notifications can be generated at that time.

• Bachelor’s degree from an accredited college or university
• Minimum 2.750 undergraduate GPA on a 4.000 point scale
• Completion of prerequisite courses with minimum C grade
• Official transcript(s)
• Goal statement
• Two letters of recommendation
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 587 TOEFL PBT score (paper-based version)
  • Minimum 94 TOEFL IBT score (Internet-based version)
  • Minimum 82 MELAB score
  • Minimum 7.0 IELTS score
  • Minimum 65 PTE score
  • Minimum 110 Duolingo English Test score

1 Applicatns are expected to have substantial preparation in the sciences, usually including coursework in biology, basic athletic training, biomechanics, anatomy and physiology (including exercise physiology), chemistry, research, physics, nutrition and general psychology. Prerequisites are evaluated for course content to ensure appropriate applicability for the program. Due to the program’s highly prescriptive requirements, students cannot transfer in coursework directly into the Athletic Training major.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.
The Master of Science degree in Athletic Training prepares graduates for the athletic training profession. The program emphasizes both ethics and research across the curriculum to integrate theory to practice, and is designed to facilitate inter-professional practice as athletic trainers engage actively with professionals across the health care disciplines.

The Athletic Training major is a two-calendar year program with summer academic work. The curriculum focuses on building clinical and didactic knowledge and skills anchored in evidence-based practice, while developing strong research skills by developing not only critical analysis skills, but also investigative research skills. Students are exposed to and actively engage with state-of-the-art equipment in professional health care facilities and are mentored by highly recognized professionals. The program fosters inter-professional collaboration to promote professional development for the students who will be practicing and researching in inter-disciplinary teams. Students have the ability to critically evaluate and complete scientific research at the end of their academic program, in addition to preparing for the Board of Certification national credentialing examination.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for
state licensing boards at Kent State’s website for professional licensure disclosure.
