* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

Admission to this major is selective. Admission to the college does not guarantee admission to a major and/or admission to professional coursework for a selective admission program. To be admitted directly into a teacher education program, it is required that new freshmen have a 2.750 high school GPA. Students who do not meet the GPA requirement at the time of admission for this major will be admitted to the EHHS General non-degree program until which time they have established a Kent State GPA of 2.750. They may then submit a change of program to declare this major.

Students are accepted into a teacher licensure program by transfer if they have achieved a minimum 2.750 GPA in previous college coursework. They must meet with an academic advisor in 304 White Hall as soon as possible to review specific requirements for admission to advanced study.

International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning a minimum 71 TOEFL iBT score, minimum 6.0 IELTS score, minimum 47 PTE score or minimum 100 DET score, or by completing the ELS level 112 Intensive English Program. For more information on international admission visit the admissions website for international students.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and meet all admission criteria listed above to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

Licensure Information

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

Students must apply for State of Ohio Licensure (defined by completion of all licensure program requirements) within 12 months of program completion. After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

Progression Requirements

Students must meet all professional requirements for admission to advanced study.

To manage enrollment and deliver high-quality programs, the faculty will select the most qualified applicants for admission based upon evaluation of academic success (overall GPA¹) at Kent State University; non-academic criteria; and other specific program criteria.

Please be aware that reapplication may be necessary if postponing advanced study coursework or if withdrawn for one year or more.

¹ Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for advanced study and professional phase based on their high school GPA for new freshmen or transfer GPA for transfer students.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.750	2.750

- Students in the Health Physical Education concentration must provide evidence of certification in First Aid, CPR, and minimum equivalence to level 5 competency in Red Cross Swimming.

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCOMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7

Program Learning Outcomes

Graduates of the program will be able to:

1. Analyze factors affecting the successful implementation of health education and Coordinated School Health (CSH); select media and resources best suited to implement plans for diverse learners; exhibit competence in carrying out planned programs; and monitor educational programs, adjusting objectives and instructional strategies as necessary.
2. Evaluate the effectiveness of CSH; develop plans to assess student achievement of program objectives; carry out evaluation plans; interpret results of program evaluation; and infer implications of evaluation findings for future programs.
3. Coordinate provision of health education programs and services and develop a plan for comprehensive school health education with other components of a school health program; demonstrate the dispositions and skills to facilitate cooperation among health educators, other teachers, and appropriate school staff; formulate practical modes of collaboration among health educators in all settings and other school and community health professionals; and organize professional development programs for teachers, other school personnel, community members, and other interested individuals.
4. Utilize computerized health information retrieval systems effectively; establish effective consultative relationships with those requesting

assistance in solving health-related problems; interpret and respond to requests for health information; and select effective educational resource materials for dissemination.

5. Communicate health information needs, concerns, and resources; interpret concepts, purposes, and theories of health education; predict the impact of social value systems on health education programs; select a variety of communication methods and techniques in providing health information; and foster communication between health care providers and consumers.
6. Obtain health-related data about social and cultural environments, growth and development factors, and needs and interests of students; distinguish between the behaviors that foster and those that hinder well-being; and determine health education needs based on observed and obtained data.
7. Recruit school and community representatives to support and assist in program planning; develop a logical scope and sequence plan for a health education program; formulate appropriate and measurable learner objectives; and design educational strategies consistent with specified learner objectives.
8. Communicate and advocate for health and school health education by analyzing and responding to factors that impact current and future needs in comprehensive school health education, applying a variety of communication methods and techniques, advocating for school health education, and demonstrating professionalism.

Full Description

The Bachelor of Science in Education degree in School Health Education prepares individuals to teach health education in the schools. Graduates are eligible to pursue the state's multi-age licensure. Students complete a variety of field experiences and a culminating student teaching experience.

The Health and Physical Education optional concentration allows students to seek Ohio teacher licensure in both health education and physical education. The program is designed to be completed in five years, and can allow students to satisfy up to 12 credit hours of program requirements with graduate courses.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.
