Program Delivery
- Delivery:
  - In person
- Location:
  - Kent Campus

Admission Requirements
The program is limited to 10-12 students each fall. Students participating in the program experience intellectual and developmental disabilities that may affect some intellectual functioning and adaptive behavior. Other qualifications include documentation of past successful work, academic, leadership, and community participation. Also required for admission are a completed application, reference letters, and an in-person interview with the CCS admission committee.

Program Learning Outcomes

Graduates of this program will be able to:

1. Become more self-determined persons who are better prepared for independent living and the achievement of career goals.
2. Gain confidence in critical and independent thinking, and use their own voice and vision in order to be active and informed citizens.
3. Understand basic concepts of the academic disciplines, and apply imagination and creativity as they begin a lifelong pursuit of knowledge.
4. Demonstrate awareness of ethical implications of their own actions, and be positive role models who contribute to societal views concerning inclusion, community, and tolerance for diversity.

Full Description

Career and Community Studies is a college-based, transition, non-degree program to prepare students with intellectual and developmental disabilities, traumatic brain injury and autism (ages 18 and older) for adult life through academic pursuits, peer socialization, and career discovery and preparation. The program integrates inclusive classes, a typical college experience, and a transition curriculum to assist students in achieving adult roles and a quality of life in a community of their choice.

The first year of the program is designed as a foundation with courses covering disability issues, personal development, health and wellness, and literacies. Year two allows students to extend their knowledge and skills in participating in college-level courses and other campus environments. The last two years focus on career-field specialization with courses in independent living, life-long learning competencies, and career development and employment, as well as internships in the community where students apply their learning in jobs of choice.

The Career and Community Studies Program (CCS) is excited to offer two new two-year programs (Career and Community Studies - College Preparation and Career and Community Studies - Employment Readiness) for students with intellectual and developmental disabilities or autism in addition to the four-year plan of study. The programs are non-degree and require 60 credits to graduate.
