Graduation Requirements

- The M.Ed. degree requires a minimum of 30 credit hours of graduate coursework.
- No more than one-half of a graduate student's coursework may be taken in 50000 level courses.
- Students have six years from the term of first enrollment to complete the program.

Program Learning Outcomes

Graduates of this program will be able to:

1. Describe the various schools of learning theory that have informed educators.
2. Conduct literature reviews and design empirical research to examine issues associated with how individuals learn.
3. Apply principles of human development and learning when developing and selecting educational approaches.
4. Identify best practices for maximizing student learning.
5. Demonstrate knowledge of theories and principles of learner motivation.

Full Description

The Master of Education degree in Educational Psychology provides advanced study for students interested in the application of psychological principles to learning and instruction. It encompasses a variety of different disciplines, including cognitive psychology, human development and learning theory. Students are exposed to the latest research findings regarding how people learn most effectively and efficiently. They also apply these principles to the design of instruction, and study how to most accurately assess different types of learning.

The M.Ed. degree program is appropriate for classroom teachers, professionals in a variety of settings and students wishing to pursue graduate-level training in educational psychology.

The Educational Psychology major includes the following optional concentration:

- The **Gifted Education** concentration focuses on gifted learners, their unique needs and the application of educational psychological principles to the education of gifted learners.
