3 Student must complete SPSY 77992 for two semesters, 6 credit hours each. An academic Year internship under supervision of the faculty and a qualified school psychologist in public schools is required. Course requirements need to be successfully completed prior to the internship.

Full Description
The Educational Specialist degree in School Psychology is committed to a scientist-practitioner model of training, which conceptualizes school psychologists as data-oriented problem solvers. The program operates from an eco-behavioral orientation and emphasizes the delivery of school psychological services from a consultative framework to prevent and remediate learning, behavioral and social-emotional concerns in individuals from birth to 22 years.

Students in the program gain competencies, not only in the provision of services to individual children in schools, but also in the promotion and implementation of systemic educational reform. Graduates of the Ed.S. degree are highly prepared to be leaders and innovators of comprehensive support services in a variety of educational settings.

Students who do not hold a master’s degree in school psychology must apply to the M.Ed. degree in School Psychology. After completing the M.Ed. degree, students may then matriculate into the Ed.S. degree.

Professional Licensure Disclosure
This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State’s website for professional licensure disclosure.

Graduation Requirements
- Upon admission to the Ed.S. degree program, students will be assigned an advisor.
- Annual State/Federal background checks are required for all field-based experiences.

Licensure Information
Candidates seeking School Psychologist licensure are required to pass the ETS Praxis II School Psychologist test or the domain specific School Psychology Ohio Assessment for Educators test.

Program Learning Outcomes
Graduates of this program will be able to:

1. Demonstrate knowledge and skills associated with the National Association of School Psychologist’s (NASP) Domains of School Psychology Training and Practice, which allows them to gain the credential of ‘school psychologist’ at the state and national levels (i.e., through both the Ohio Department of Education and NASP’s national certification program [Nationally Certified School Psychologist, NCSP]).
2. Demonstrate positive impact on students in applied settings as related to assessment, planning/supports and implementation of interventions related to academic and behavioral needs as identified by key stakeholders in a variety of internship placement settings (i.e., within public schools).
