Fully Offered

- **Delivery:**
 - In person
- **Location:**
 - Kent Campus

Admission Terms

- Fall
- Spring
- Summer

*Note

Source of occupation titles and labor data is from the U.S. Bureau of Labor Statistics'

Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Description

The Ph.D. degree in School Psychology is committed to a scientist-practitioner model of training, which conceptualizes school psychologists as data-oriented problems solvers and transmitters of psychological knowledge and skill. As such, students draw upon the scientific literature as a primary basis for professional practice and focus their research agendas so as to have meaningful implications for practice. In addition, functioning as a scientist-practitioner means that professional practice is conducted in ways that are consistent with the scientific method.

Emphasis in training is placed on the provision of services through research-based practice and data-based decision making. Doctoral students gain competencies, not only in the provision of school psychological services to individual children and youth, but also in the

promotion and implementation of systemic, preventative educational and mental health systems. Since the program's emphasis is on the application of psychology in applied educational and mental health settings, students are required to demonstrate competence in the substantive content areas of psychological and educational theory; the scientific, methodological and theoretical foundations of practice in school psychology; data-based decision making; intervention design and evaluation; and cultural and individual diversity.

The school psychology doctorate prepares students to work as leaders in applied practice in educational and mental health settings.

Accreditation

American Psychological Association (APA), Recognized by the National Association of School Psychologists (NASP)

Admission Requirements

- Master's degree from an accredited college or university
- Minimum 3.000 graduate GPA on a 4.000 point scale (minimum 3.500 GPA is recommended)

Psychology (PSYC) Elective		3
<i>Culminating Requirement</i>		
SPSY 80199	DISSERTATION I ¹	30
Minimum Total Credit Hours:		91

Graduation Requirements

- The total number of required credit hours in each student's Plan of Study/Residency Plan will vary based on previous graduate coursework, point of entry into the program, program area advisor input and the school psychology program requirements. The minimum requirement for a doctoral degree is 60 credit hours beyond the master's degree. Given the requirements of the accreditation bodies governing Kent State's school psychology degree program, the typical number of required credit hours for the doctoral degree will exceed that of the minimum college requirements.
- Students who enter the program without recent and comprehensive training in school psychology (from a NASP-approved program) and without a school psychology license must complete relevant

coursework. The total number of required hours will vary based on point of entry into the program, previous coursework and program advisor input.

- State/Federal background checks are required for all field-based experiences.

Candidacy

Once the student has successfully completed and orally defended their comprehensive exams, they are recommended for doctoral candidacy in line with all other program and college requirements.

Licensure Information

Candidates seeking School Psychologist licensure are required to pass the ETS Praxis II School Psychologist test or the domain specific School Psychology Ohio Assessment for Educators test.
