About This Program
The Master of Education in Educational Technology program prepares you for a successful career in the field of education technology. With a curriculum focused on the latest trends and technologies in education, you'll gain the skills and knowledge needed to excel in a variety of roles. Read more...

Contact Information

- Connect with an Admissions Counselor: U.S. Student | International Student

Program Description
- Delivery:
  - Fully online
  - Mostly online
- Location:
  - Kent Campus

Examples of Possible Careers and Salaries*
Industrial coordinators
- 5.9% faster than the average
- 192,900 number of jobs
- $66,970 potential earnings

Librarians and media collections specialists
- 5.0% faster than the average
- 146,500 number of jobs
- $60,820 potential earnings

Training and development specialists
- 8.6% much faster than the average
- 327,900 number of jobs
- $62,700 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Graduation Requirements

- No more than one-half of a graduate student’s coursework may be taken in 50000-level courses.
- Students must complete 100 hours in the practicum for either the Computer Technology or Computer Science endorsement.

Program Learning Outcomes

Graduates of this program will be able to:

1. Demonstrate knowledge about different types of hardware and of a variety of different software applications.
2. Conduct literature reviews to examine issues associated with technology and learning.
3. Develop, implement and troubleshoot web-based, interactive multimedia educational programs.
4. Design, develop and evaluate educational materials using various technology tools.
5. Apply principles of message design to the development of educational materials.
6. Identify critical issues related to the field of educational technology.
7. Advocate for the appropriate use of technology in educational settings, including providing equitable access to technology resources for all students.
8. Apply principles of change management, organizational development, technological diffusion and adoption and project management to effecting change in an organization.
9. Practice the systematic evaluation of educational materials that use technology, based upon the objectives previously established for the unit or lesson.
10. Assess the effectiveness of the use of technology for instruction, with a variety of assessment techniques.
11. Identify trends in the field, and apply those trends to current situations.

In addition, graduates of the Computer Science concentration will be able to:

1. Demonstrate knowledge of computer science content and model important principles and concepts.
2. Demonstrate knowledge of and proficiency in data representation and abstraction
3. Effectively design, develop, and test algorithms
4. Demonstrate knowledge of digital devices, systems and networks
5. Demonstrate an understanding of the role computer science plays in its impact in the modern world

Dual Degree with M.L.I.S. degree in School Library Media K-12

Student have the opportunity to complete a dual degree program with the M.Ed. degree in Educational Technology and the M.L.I.S. degree in School Library Media K-12. A separate application must be submitted for each program. Students can view admission requirements for each program on their respective catalog page.

The M.Ed./M.L.I.S. dual degree program leads to a multi-age initial licensure in school library media. This program prepares students to work in all types of libraries, including school libraries. The program of study includes professional educational requirements, along with library science and educational technology courses.

Additional Library and Information Science (LIS) courses are accepted

Culminating Requirement
LIS 60892  CULMINATING EXPERIENCE FOR DUAL DEGREE  6

Minimum Total Credit Hours:  57

Graduation Requirements
- Students in M.Ed. degree have six years from the term of first enrollment to complete the degree.
- Students are responsible for completing licensure paperwork requirements through the College of Education, Health and Human Services near the end of or at the conclusion of their M.L.I.S. degree program. Exam administered by the Evaluation Systems Group of Pearson is required for licensure.

Licensure Information
Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. Students should consult their advisors for specific program requirements and refer to the Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type.

Full Description
The Master of Education degree in Educational Technology prepares students to design, develop and use a variety of technologies in school classrooms, in training facilities or in other educational settings. Students gain core educational technology knowledge and skills and then specialize in an area within the field.

The Educational Technology major comprises the following optional concentrations:
- The Computer Technology Endorsement Preparation concentration allows students with an existing Ohio teaching license to obtain the computer technology endorsement. The endorsement allows teachers to teach computer applications in the classroom or assume technology leadership positions in a school or at the district level. The endorsement cannot be obtained as a stand-alone license.
- The Computer Science Endorsement Preparation concentration allows students with an existing Ohio teaching license to obtain the computer science endorsement. The endorsement prepares computer science educators. The endorsement cannot be obtained as a stand-alone license.

Students may declare the program with no concentration and develop of plan of study to meet their educational and career goals.
